# ACTIVITY SPONSORS'

# HANDBOOK

## Student Activities Philosophy

The primary purpose of the Student Activities program is to meet those school-related interests and needs of students beyond the curricular program of the school. The activities program refers to classes, intramurals, fine arts and interscholastic programs. The following is a list of objectives for the activities of **all** students:

1. Learn how to use leisure time more wisely.
2. Expand and use constructively unique talents and skills.
3. Increase new vocational and recreational interests and skills.
4. Develop more positive attitudes toward the value of vocational and recreational activities.
5. Boost their knowledge of and skill in functioning as leaders and/or as members of a group.
6. Develop a more realistic and positive attitude towards themselves and others.
7. Encourage a positive attitude toward school as a result of participation in the student activities program.
8. Understand and participate in the democratic processes of an organization.

All school-sponsored interscholastic activities of member schools are conducted in accordance with Anchorage School District Rules and Policies. Additional standards may be established by each school for its own students.

## Sponsor's Responsibilities

A sponsor has a great deal of influence on the success of a student group and activity. A student group is often a mirror image of a sponsor's interest and enthusiasm. The following criteria is the responsibility of the sponsor of any Anchorage School District middle school activity. The sponsor should:

1. Supervise all participants and stay until all students leave the school to go home.
2. Assure that activities are scheduled on days that school is in session.
3. Assure that activities are not scheduled on any of the cultural and religious dates of significance.
4. Attend **all** meetings and activities.
5. Obtain administrative approval for posters and bulletin announcements. Posters, bulletins, fliers or displays must not depict alcohol or drugs or their use unless they are a part of an administration-approved drug/alcohol use prevention program.
6. Account for all uniforms, supplies, and equipment used during the school year.
7. Provide leadership.
8. Promote positive student interest, enthusiasm, and leadership.
9. Obtain approval of the school administration for all activities.
10. Discuss with students pros and cons of all projects.
11. Sign all purchase orders.
12. Follow-up with students to make sure they are fulfilling their responsibilities.
13. Encourage good academic standing and ethical behavior for all members of the organization.

## Student Government

Each middle school may have a student government or council which is established and organized through its respective constitution and by-laws. The delegation of authority and responsibility for each school's government may vary between schools.

Each student government has a sponsor, whose responsibility is to advise and to assure that the

## Student Government (continued)

organization operates efficiently, effectively and within the established guidelines and policies. Some of the responsibilities may include:

1. Student dances
2. Assemblies
3. Special projects funding
4. Elections
5. Leadership training sessions
6. Recommendations to administration, staff, and students

## Student Advisory Board

### Purpose

The purpose of the SAB is to act as an advisory committee to the School Board. Its primary goals will be to enhance the educational system, and to voice the needs of students.

1. Each middle school shall have two (2) representatives.
2. Student representatives from middle schools including, alternative middle schools, shall be elected for one (1) year terms.
3. After meetings are concluded the representative will report to their respective student governments and the assistant principal.

## Newspaper

The production of a newspaper may be a part of an elective course or a school activity at middle schools. The sponsors will meet each year with the principal to discuss the procedures to be followed.

## Spirit Signs/ Posters/ Advertisements

Any advertisements of school events must have the approval of the administration. Spirit signs may not be posted in any area which would obstruct the vision of spectators.

## Dances

A maximum of six (6) dances may be held during the school year. Middle school dances will generally be held immediately following the dismissal of school.

## Field Trips

Schools/teachers requesting a field trip must:

1. Ensure the purpose of the field trip meets Alaska Standards and Unit Curricular goals. These are to be annotated on the community resource request form.
2. Be approved at the building level by the principal or his/her designee before the date of the field trip.
3. Ensure the field trip permission form, or a similar school generated form, is completed for each student going on the trip.
4. Follow the guidelines of one adult chaperone per 10 students.

## Fund Raising

All fund raising projects must be approved by the building principal or his/her designee *before* the activity begins. Money may be raised for local and state sponsored activities only.

In order to gain approval for a fund raising activity, the following criteria must be met:

1. There must be a clearly stated purpose as to why there is a need to fund raise and what the funds will be used for.
2. No candy or bake sales may be held in competition with the school lunch program.
3. Correct purchasing and accounting procedures must be followed.

All purchases involving the use of student body funds will be approved by the principal and organization sponsor. Each purchase will be made using a student body purchase order form so correct accounting procedures can be followed. Original receipts must be obtained by the purchaser and returned to the Administrative Financial Procurement Clerk (AFPC).

### STUDENT ACTIVITY PROJECTS

1. Written approval must be obtained from the principal or designee for any school sponsored group participating in a student fund raising activity off the school premises. A copy of such approval will be retained in the files of the school office.
2. All contractual agreements with independent business organizations will be reviewed and

## Fund Raising (continued)

- signed by the principal(s) of the participating school and the appropriate business establishment.
3. A copy of each executed contract generated through the RFP process must be forwarded to the district's purchasing office.
  4. ASD accounting procedures must be observed for each activity. Monies should be turned in daily to the school's AFPC.
  5. Where a single school is involved, records and documents must be maintained and cash deposited in the student activity fund of that school. Where more than one school is participating, one of the schools should be selected for this purpose.
  6. Secondary schools shall be allowed to open a separate checking account to handle all of the transactions involved with student activity raffles.
    - a. The regulations, accounting, and reporting requirements outlined by the Department of Commerce *must be followed*.
    - b. The types of District authorized games of chance shall be limited to raffles. **Pull-Tabs and Bingo are prohibited.**
    - c. Raffles will not be permitted unless the school has a current valid permit from the Department of Commerce, Division of Occupational Licensing.

## Food Service Policy

### Temporary Food Service Events in Schools

#### Frequently Asked Questions

1. **Do I need a permit from the Department of Health and Human Services (DHHS) to serve food in an ASD school?**

Temporary food service vendors operating within the Municipality of Anchorage offering food to the public must obtain a permit issued under the Anchorage Food Code. Food served to the public requires a food permit; however when food is served at a private event a permit is not required.

2. **What do you mean by "the public"?**

The difference between public and private may best be explained by using examples.

**Potluck or food prepared on-site for office staff:** Since the people attending will be office staff only, this event is private and does not need a permit.

**Fundraiser where food is served and event is advertised:** Fundraisers do not limit who may attend, so they are considered public events and require a food service permit. If a fundraiser is not open to the public, then a permit is not required.

**Bazaar where food is served:** Bazaars do not limit who may attend, so they are considered public events and require a food service permit.

**School or extracurricular function:** If attendees are limited to a group such as students from a specific school and their parents, a food service permit is not required. However, if people other than a set group attend and the event is advertised, the event is considered public and a food service permit is required.

3. **What about foods served in classrooms for special events like birthdays or as educational projects in classes?**

The Anchorage Food Code allows for occasional food preparation as part of a curriculum in a school. Birthday and holiday celebrations and food preparation projects in a classroom (home economics, for example) do not need a food service permit.

4. **Are there foods that can be offered to the public without a permit?**

Yes. These include commercially prepackaged non-potentially hazardous foods. These include candy bars, potato chips, crackers, granola bars, canned or bottled beverages and the like. In general, if a food is commercially prepackaged and doesn't need refrigeration, it fits into this category.

Bakery-type items. These include homemade and commercially prepared cookies, muffins, donuts and fruit pies. However, service of bakery-type items containing fillings or toppings such as custard, whipped cream (note that Cool Whip and similar items are not actually whipped cream) or meringue are potentially hazardous and requires a food service permit.

Other foods. These include popcorn, cotton candy, prepackaged ice cream novelties (pre-

# Food Service Policy

(continued)

packaged ice cream bars, for example), coffee served using only single service items and using non-dairy creamers, and whole fruits and vegetables.

## 5. Are there any restrictions about how or where the food is prepared?

Vendors are required to store food, equipment, utensils and supplies at a facility approved by the Department of Health and Human Services (DHHS). Any preparation of food or cleaning of equipment and utensils that is not conducted at the event location must also occur at the approved facility.

Foods may not be prepared or stored at a home or at an unapproved site.

## 6. How do I apply for a permit from DHHS?

To avoid a late fee, vendors must apply for a permit from DHHS at least 7 days prior to the planned opening of their facility. Permit applications may be obtained:

- Monday through Friday from 8 a.m. to 5 p.m. (4:30 p.m. on Friday) at DHHS, 825 L Street, 5th Floor in Anchorage.
- At [www.ci.anchorage.ak.us/healthesd/sanity.cfm](http://www.ci.anchorage.ak.us/healthesd/sanity.cfm).

## 7. Do I need anything else in order to obtain a permit?

Yes. Permit applications cannot be accepted unless a food manager certificate is included with the application. To become certified, vendors may take the Temporary Event Food Protection Manager Certification Exam between 8 AM and 3:30 PM at DHHS. The certificate is issued immediately upon passing the exam and is valid for three years. The exam is based on the Serving Safe Food in Alaska handbook which can be obtained at DHHS and is also available on the website above (see Question 6). The cost of each temporary food manager exam is \$10, payable prior to the exam.

Vendors who have completed a DHHS-approved 4 or 8 hour food protection manager certification program (ServSafe, for example) and have passed the associated written exam within the past 3 years have met the certification requirement. A copy of the certificate must be submitted along with your permit application.

## 8. What happens once I've applied for the permit?

An opening inspection will be conducted by a sanitarian. This means that an inspector from DHHS will visit your event to ensure that your operation meets minimum health requirements. You do not need to wait for the inspector to "open" your booth or stand, you may begin operating at the time and place you put on your application. When the inspector arrives he/she will discuss corrective measures needed (if any) and issue your permit. Your permit must be posted in a conspicuous place in full public view. A sanitarian may inspect the commissary (approved facility, see Question 5) as part of the inspection process.

## 9. How do I get more information?

A copy of the Anchorage Food Code (AMC 16.60) is available at DHHS at 825 L Street, 5th Floor, and also online. For further information please call the Anchorage Food Safety & Sanitation Program at 343-4200.

The Anchorage School District Health Permits issued by the Municipality cover all school kitchens for school food functions. When a school food function is open to the public, it must meet the following criteria:

Be approved by the School Administration (principal). Food and supplies must be secured from an approved source (see guidelines below). The food function must comply with the type of kitchen permit, i.e. heat and serve (satellite) kitchens for elementary schools; preparatory kitchens for middle and high schools. The food function must be supervised by an ASD Food Service employee who has ServSafe Certification. When these criteria are met, the umbrella policy regarding Health Permits agreed to by the Municipality and the Anchorage School District shall apply. No additional permit will be necessary.

### Guidelines

The following regulations apply only when the activity is open to the public:

- a. All food must be from an approved source, not from private homes. Approved source means that the food has been approved by USDA/FDA and is sold through a licensed outlet at the local level.

Bakery items would not fall under this requirement.

Example: Goods purchased at grocery stores or wholesale outlets that carry products approved by USDA/FDA.

# Food Service Overview

# Food Service Overview

(continued)

- b. The food function must fit within the limitations of the school kitchen. Most elementary school kitchens are approved only for heating and warming prepared food from an approved source.

Example: A spaghetti dinner where sauce purchased from an approved source is heated and the noodles are boiled or a carnival booth selling Chinese egg rolls, purchased at Carr's, heated in the school kitchen.

- c. The food function can be catered. Catering means the caterer, licensed to do business, brings the prepared food, serves it and cleans up the kitchen or the catered food from the licensed caterer, is served by and cleaned up by ASD student nutrition staff.

Example: The King Career Center Food Service program caters a school event.

- d. If they are using the kitchen, a SN staff must be present at all times, and the client will be billed for the hours.

Example: Staff and students operating a concession stand or a PTA member serving at a food event.

The following school activities are considered private and do not fall under the Municipal Health Department licensing or inspection regulations but are the responsibility of the Anchorage School District to monitor:

1. **Potlucks** are considered private when they are held for specific events and not open to the public at large. The participants in the food event are limited to specific groups easily identified as separate from the general public of the school.

Example: An awards potluck for the German Club students and their parents or an authors tea for the fourth grade students and their parents.

2. **Parties** are considered private when they occur in individual classrooms or are held for a specific purpose with a specific limited population.

Example: A class party or an Honor Society Induction reception.

3. **Individual classroom activities** that involve food for teaching purposes, snacks or reward incentives. These types of food activities are within academic freedom and are not the responsibility of the Municipality, State or Federal Health agencies.

Example: An ethnic food project or snacks prior to taking standardized testing.

These events should be approved by the building administrator as well as comply with ASD Student Nutrition.

## School Fund Raising Events

Many school fund raising events are food functions. Schools will review on an annual basis the policy and procedures to be followed for these types of food events.

1. **Bake Sales** means an informal sale of candy or baked goods, not filled or covered with a potentially hazardous food, to the public at a fixed location for a period of time not to exceed four periods of 14 consecutive days or less during the calendar year.

Example: Cheerleaders bake sale after school or PTA bake sale on back to school night.

Note: Goods such as pumpkin pie, custard or filling goods are not allowed.

2. **Fruit/Vegetable Sales** are acceptable as long as the fruit/vegetable is not cut and the handling and sales are monitored by an individual with ServSafe Certification. Sale of cut up fruit or vegetables is not allowed unless prepared in the school kitchen under guidelines covered by the ServSafe Certification training. Arrangements must be made in advance.

Example: Oranges and grapefruit sold by the case. Note: Cut vegetables or fruit prepared at home and brought to school for such activities are not allowed.

3. **Candy Sales** of prepackaged approved source goods supervised by an individual with ServSafe Certification.

Example: Band sells School's Finest Chocolate Bars.

4. **Donut Sales:** Each individual donut needs to be wrapped and goods need to be purchased from an approved source. Location of sale must have a hand-washing sink available and individuals selling need ServSafe Certification.

Examples: Student Government sells donuts before school.

5. **Concession Stand:** Selling prepackaged goods and popcorn. Health permit will cover popcorn preparation with the condition that individuals popping, handling and cleaning the equipment have ServSafe Certification, a hand washing sink is available and access to school's kitchen for proper sanitation is provided. Machines will be sanitized after each use.

## Food Service Overview

(continued)

## Special Events Requiring School Kitchen Use

Example: Concessions sold in the gym area at school athletic events.

Note: Hot dogs, nachos, pizza and similar items need to be pre-approved and have a plan review that indicates areas of concern such as refrigeration, heating, location and adequate hand washing sinks. They are not allowed unless specifically approved with an on-site MOA inspection.

6. School Stores: that sell prepackaged food items must be in compliance with the Municipality and the Anchorage School District agreed upon procedures. A separate permit will not be necessary under the umbrella agreement.
7. Adult support groups such as PTA or Booster Clubs that are raising money through food sales that involve school events must be in compliance with the Municipality and the Anchorage School District agreed upon procedures.

Example: Swim team parents selling snacks at a swim meet or PTA spaghetti feed.

### Third Party Use of School District Facilities

Needed In order to be in compliance with the Municipality:

1. Permission from the School Administration, Building Rentals and Risk Management.
2. Permit from the Anchorage Health Department
3. Notification of the Student Nutrition department, and hiring of SN staff.

Groups and associations can “rent” parts of a school including the cafeterias and kitchens for their events by calling the **Rentals department, 742-4143**. Events which use the kitchen are required to have a Student Nutrition ServSafe certified staff member present while they are there. Student Nutrition staff is paid time-and-a-half, in accordance with the union contract. The wages are billed back to the client for the event. If the Student Nutrition department is catering the event, then it is staffed by the catering department.

### Kitchen use at a school

There should be many volunteers working your event from set up through final cleanup. Student Nutrition ServSafe certified staff is required to be present in our kitchens to oversee the use of equipment, ensure proper sanitation of the kitchen, supervise volunteer personal hygiene and monitor proper food safety.

### Student Nutrition staff responsibilities while working an event include:

#### Monitor use of the equipment

SN staff is present to ensure that all equipment is used properly, cleaned properly and the kitchen is left clean and sanitized. Groups are entitled to use all equipment and utensils when they rent the kitchen. This includes ovens, hot carts, cookie sheets, thermometers, refrigerators, etc. They are NOT permitted to use any Student Nutrition food products, milks, condiments, sporks, napkins, trays, etc. Gloves and hairnets must be used. If they do not provide their own gloves and hairnets, we will provide them for a minimal cost to ensure food safety. The kitchen should be left in excellent condition for the start of school the next day.

#### SN staff is expected to monitor sanitation and volunteer staff hygiene by:

- Setting up bleach buckets (50-100 ppm) and thermometers for testing food and wiping down countertops.
- Requiring volunteers to wash hands as often as necessary, wear gloves and hairnets. Volunteers should change gloves often between tasks.
- Ensuring that the entire kitchen is cleaned and sanitized at the end of the event.

#### SN staff is expected to monitor food safety by ensuring the following:

- Make sure any food they bring is being kept at proper temperatures (refrigerator, oven or hot cart)
- Show volunteers how to temp food if needed.
- Be aware of ice machine usage and possible cross-contamination of ice. Use designated ice scoops that have been cleaned and sanitized with 50-100 ppm.

### Use of raw meats and raw seafood products is prohibited unless prior arrangement have been made with Student Nutrition.

If a SN staff worker witnesses a violation of food safety and sanitation practices, they are expected to point it out and correct it immediately. If there are questions, please contact Student Nutrition, 348-5188.

# Section 2

# ATHLETICS

All policies and procedures not mentioned in this handbook must be consistent with Middle School Administrators' Manual and Anchorage School Board policies.

## Philosophy

An athletic program should contribute to sound educational objectives when properly organized and conducted and should be an integral part of the school's programs. The better the athletic programs are organized and conducted, the greater will be their contribution to the educational goals of the District and to the personal needs of the students. The fact that the programs are well organized does not necessarily mean an over-emphasis on sports, but rather an assurance that they are being efficiently administered with maximum benefits accruing to students.

The Department of Physical Education and Athletics must promote strong health, physical education and intramural programs that encompass both boys and girls. Through such programs, the needs of most of the students are met. However, there are still a large number of students who have the talent and desire to go far beyond the daily instructional and intramural programs. These students, as well as other students who are less physically gifted, can obtain added benefits and fulfill additional needs by participating in a well designed interscholastic athletic program.

Although winning in sports is a major objective and a tremendous motivating force, it is not considered to be the goal of athletic participation. More important than winning are the changes that take place in the participant, in the nature of becoming a more useful and loyal citizen, in the desire to achieve excellence, in living a more healthful and purposeful life, in the respect for the dignity of others, in the willingness to make a personal sacrifice for the benefit of the team, and in living by a high code of conduct. These become the more lasting benefits of athletic participation for the individual.

## Objectives of the Athletic Program

A school's athletic program serves many purposes and increases advantages for students who participate directly or indirectly. Opportunity for total fitness improvement is accrued to the students who participate.

1. **Physically**-participating in progressively more difficult conditioning exercises, drills, skills, and contests. The players will be striving for higher levels of development in speed, strength, endurance, balance, agility, coordination, flexibility, timing, life-long fitness and good body aesthetics and mechanics.
2. **Mentally**-through learning the history of sports and developing an appreciation for sports, learning the rules of the games and team strategies, assuming leadership, and responsibilities commensurate with one's age and maturity.
3. **Emotionally**-through self and team discipline by demonstrating good sportsmanship and, learning to give and take on a friendly basis of rivalry. Participating in sports should serve as a motivating force for the student to do better in school work through the development of the qualities of courage, tenacity, alertness, and resourcefulness. Participating also serves as an outlet for a student's emotional stresses.
4. **Socially**-through service to school and community by developing respect for the dignity of mankind, respect for the rules of the game, respect for public and private property, by developing social courtesies of the game and loyalty to self, team, school, and community.

It provides opportunity to excel and to strive to win within a framework of good health practices and established rules.

It contributes to good school spirit and provides opportunities for wholesome competition.

# Objectives of the Athletic Program (continued)

## Administrative Responsibilities

## Title IX Guidelines for Administrators

It provides an educational device by which the student body can better appreciate the role of spectators.

It stimulates interest in, and support for, the entire school program.

These purposes are worthy ones which will challenge the abilities of the best people in the coaching profession. They will merit the interest and support of the student body and teaching staff and will command respect from the community.

**Superintendent of Schools** –The general responsibility for the middle level athletic programs lies with the Superintendent of Schools.

**Principal** –The principal of a school is responsible for promoting and conducting the athletic program within his/her school in accordance with School District policies.

**Middle School Assistant Principal** –The Middle School Assistant Principal shall have general supervisory responsibility of the athletic programs, help correlate and coordinate these programs within the school and give professional leadership for their improvement. His/Her major responsibilities will be primarily concerned with:

1. Student and player eligibility and behavior.
2. Financing the programs.
3. Supervising the coaching staff.
4. Assisting the coach in verifying parental permission, health examination and payment of fees; he/she then sends a copy of the list to the coach.
5. Interpreting and enforcing School District Policies.
6. Filing the necessary reports, i.e., student participants in each activity with student numbers, sex-equity report for each activity.
7. Providing for supervision at all scheduled games and contests. The administrator has the authority to remove any spectator who does not conduct himself/herself respectfully.
8. Anchorage School District administrators will prepare a comprehensive yearly schedule of athletic events for ASD middle schools, taking into account all other school activities such as musical programs, dances, etc. Scheduling includes changes, cancellations and withdrawal of team from competition before the end of the contest.
9. Emergency Vehicle Service-Good judgment on the part of the assistant principal will need to prevail when a decision must be made regarding utilization of paramedics to transport a student to the appropriate treatment facility. If doubt exists, request that service. An ASD employee designated by the administrator in charge must accompany the student, if the parent is not at the scene.

Parents should always be notified of action of the above nature and informed of the destination of the student. Cost of the service is usually covered by various insurance plans the family may have. In the event there is no family insurance plan, the cost for the emergency vehicle service will be the parent's responsibility. (Cost and the responsibility for these costs should always be secondary to the safety and welfare of the student.)

“No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any educational programs or activity receiving federal financial assistance”.

-From the preamble to Title IX of the Education Amendment of 1972

The Board is committed to an environment of nondiscrimination on the basis of race, color, religion, sex, age, national origin, economic status, union affiliation, disability, and other human differences. No person shall be excluded from participation in, or denied the benefits of, any academic or extracurricular program or educational opportunity offered service offered by the District. The District will comply with the applicable statutes, regulations, and executive orders adopted by Federal, State, and Municipal agencies.

Title IX applies to all programs in a school (including academics, extracurricular, and athletics) that receives federal financial assistance. It protects all participants in the academic program from gender discrimination including parents, students and employees.

If a school becomes aware of equal opportunity violations or sexual harassment, the school will take appropriate actions to investigate the situation. For more information on the student grievance process speak with your principal and/or follow the Student Grievance Process in this hand-

The principal is the Title IX Designee for their school and must respond to all Title IX complaints in a time and consistent manner. To ensure compliance with Title IX, it is the responsibility of the school principal to:

1. Ensure equal access to all aspects of education including classes programs and services.
2. Be aware of areas of gender under representation in all areas of the school environment.

  - a. Title IX inquiries or complaints are reported immediately to the school principal or department supervisor. Complaints not resolved at the school or department level may be reported to the Equal Employment Opportunity Director, who also serves as the Title IX Coordinator. Concerns may also be reported to any of the following external agencies: Alaska State Commission for Human Rights, Anchorage Equal Rights Commission, Equal Employment Opportunity Commission or Department of Education, Office of Civil Rights.
  - b. Report the status and resolution of all Title IX complaints to the EEO Office.

## Coach's Responsibility

The person who has the greatest influence on the athlete and the stature and success of an athletic program in a school is the coach. It is, therefore, of paramount importance that the individual is well trained and versed in the activity and that he or she demonstrates the highest type of behavior, leadership and sportsmanship before the squad, student body, faculty, and community. ASD coaches and assistant coaches are required to have a current first aid card and to have completed child abuse and bloodborne pathogens training in addition to any other trainings mandated by law or regulation prior to the beginning of the sport season.
