

Anchorage School District Student Internet User Agreement

5530 E. Northern Lights Blvd.
Anchorage, AK 99504-3135 (907) 742-4607

Dear Parent or Guardian,

We are pleased to offer students in the Anchorage School District access to the District computer network for internet access. To obtain Internet access, all students must obtain parental permission and must sign and return this form to the school office.

Access to the Internet will enable students to explore thousands of libraries, databases, and bulletin boards while exchanging messages with Internet users throughout the world. Families should be aware that some material accessible via the Internet may contain items that are illegal, defamatory, inaccurate or potentially offensive. While our intent is to make Internet access available to further educational goals and objectives, students may find ways to access other materials as well. We believe that the benefits to students from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources.

District Internet and E-mail Rights and Responsibilities

Students are expected to act in a considerate and responsible manner when accessing network services.

Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. Communications on the network are often public in nature. General school rules for behavior and communications apply. The network is provided for students to conduct research and communicate with others. Parent permission is required and students who do not have such permission are responsible for not accessing the Internet at school. Access is a privilege, not a right, and entails responsibility.

Individual users of the District computer networks are responsible for their behavior and communications over those networks. It is expected that users will comply with District standards and will honor the agreements they have signed.

Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and insure that users are using the system responsibly. Users should not expect that files stored on District servers will always be private.

Within reason, freedom of speech and access to information will be honored. During school, teachers of younger students will guide students toward appropriate materials.

The following are not permitted:

- Sending or displaying offensive messages or pictures
- Using obscene language
- Harassing, insulting, or attacking others
- Violating copyright laws
- Trespassing in another's folders, work or files
- Employing the network for commercial purposes
- Deliberate damage to hardware or software
- Use of District computers for illegal activities
- Using another's password

Violation may result in a loss of access as well as other disciplinary or legal action. For more information, see the School Board Policies and the ASD Student Rights and Responsibilities document.
