SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-01
ADDENDA FOR DEPARTMENT CHAIRS/TEACHERS IN
CHARGE

School Board member Crystal Kennedy submitted the following request on January 23, 2012. Ed Graff, Assistant Superintendent, Instruction; Eric Tollefsen, Executive Director, Human Resources; Mike Henry, Executive Director, High School Education; Leslie Vandergaw, Executive Director Middle School Education; Linda Carlson, Executive Director, Elementary School Education and Marie Laule, Budget Director prepared the following response.

REQUEST:

I understand the contracted agreement for paying for addenda for department chairs/teachers in charge. Is my assumption true that all elementary schools have a designated teacher in charge and that all secondary schools have department chairs?

What criteria are used to determine when a department chair is needed? How are department chairs assigned at the secondary level; in other words, does each middle school and each high school have a department chair for each core subject (math, language arts, social studies, science)? Does each non-core department have a department chair, i.e., art, music, PE, C&TE, foreign languages, etc.? Is the amount for the designated department chair the same for every department? It appears that we are spending a much higher amount of money for department chairs at the middle level per staffing numbers at the middle schools than at either the elementary level (teachers in charge) or high school level. Can departments be combined for the purposes of reducing the number of people designated as department chairs (i.e., Social Studies & Language Arts, or Math & Science) for middle schools?

RESPONSE:

All elementary schools designate a teacher-in-charge. They are paid a range 3 addenda of \$1,750 or if the school has an assistant principal they are paid a range 1 addend of \$800.

All middle and high schools designate department chairs. When a department has four or more teachers, a department chair is selected by the principal. Department chairs (DC's) at the secondary level have significant leadership responsibilities related to their area of content expertise. Selection criteria are typically based on instructional leadership ability, content area expertise, experience with budgeting and staffing, etc. All core subject areas (language arts, math, social studies and science) have department chairs. Non-core departments may have a DC or the principal may elect to combine departments if the number of teachers is less than four in each area.

Addenda for each DC are determined by the number of teachers that report to them. Department chairs responsible for 3-8 teachers receive a range 5 addenda of \$2,400; 9-17 teachers increases the addenda to \$3,000 which is a range 6; and 18 or more teachers increases the addenda to \$4,500 dollars which is a range 7.

Middle and high school's provide the same content ie. math, science, music, etc. and, therefore, provide nearly identical DC support to their teachers. The total allocation for middle school department chairs is \$207,000. The allocation for high school DC's is \$253,000. High schools have more students and more teachers than their middle school counterparts. As a result, high school department chairs typically receive range 6 addenda whereas most middle school DC's receive range 5.

Combining core departments is not possible in the middle schools or the high schools due to the large number of teachers in each department. Non-core departments are combined at both middle school and high school if the total number of teachers is too small to justify a stand-alone department chair.

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-02
JOB DESCRIPTION FOR ASSISTANT PRINCIPALS

School Board member Crystal Kennedy submitted the following request on January 23, 2012. Ed Graff, Assistant Superintendent Instruction; Eric Tollefsen, Executive Director Human Resources; Mike Henry, Executive Director High School Education and Marie Laule, Budget Director prepared the following response.

REQUEST:

Last year, I was given a list of simple, non-instructional jobs that were being done by high school assistant principals. Some of what was on that list was issuing parking tickets, keeping school calendar, assigning lockers. It became apparent to me that many functions that were considered the responsibility of an AP were not actually functions that required a certificated AP to do; that a clerk/administrative assistant/security staff member could do and obviously at a cheaper cost.

Was the job description for AP's reviewed? Which functions could be turned over to other less expensive staff? With AP's required to do fewer menial tasks, can we do with fewer AP's or can we at least make sure they are being used more efficiently?

RESPONSE:

Assistant Principal duties are reviewed and updated annually at each building location. The duties listed for high school administrators in last year's RFI#12-35 were administrative items that principals and assistant principals are assigned to supervise, coordinate, manage and evaluate.

For example, the duty listed as "Parking Fines" does not necessarily mean the assistant principal actually monitors the parking lot and writes the parking

ticket. It means the assistant principal provides training for safety/security on parking; rules for parking and driving, proper completion and disposition of parking tickets and vehicle search protocol. It includes coordination of school safety/security staff and the school resource officers on violations that may be school infractions and those that may be Anchorage Police Department matters. The assistant principal supervises and directs this process.

In addition, the assistant principal provides training to secretarial staff on the proper procedures for collecting parking fees and fines, documentation and proper handling of funds paid by students. In each high school, a secretary is tasked with the actual distribution of parking permits and the research required for the verification process but the assistant principal is charged with supervising the process and evaluating staff.

On a regular basis, the assistant principal is involved with student conferencing, parent contact and providing consequences for those who have frequent parking/vehicle violations. In addition, the assistant principal is charged with making the determination and leading the way on vehicle searches and police involvement when needed. High school parking lots are filled with about 3,000 vehicles each day throughout the district.

The same expanded description of principal and assistant principal duties could be said about "assigning lockers" or "keeping the school calendar." All duties assigned are "administrative" in nature.

IMPACT ELIMINATION OF MATH SUPPORT TEACHERS

School Board member Jeff Friedman submitted the following request on January 23, 2012. Ed Graff, Assistant Superintendent, Instruction; Darla Jones, Executive Director, Curriculum & Instruction; Linda Carlson, Executive Director, Elementary School Education and Marie Laule, Budget Director prepared the following response.

REQUEST:

What would be the instructional impact of eliminating some or all of the Math Support Teachers in Curriculum department?

RESPONSE:

Currently, the General Fund only supports one math support teacher for all middle schools and two math support teachers for all elementary schools. While the Title I program has some positions supporting math with their Title I grant, most of their work must be concentrated in Title I schools with the exception of some professional development that is allowable district-wide.

Math support teachers are responsible for providing professional development through many different avenues, and these responsibilities have grown considerably during the 2011-2012 school year as the district has implemented recommendations as a result of the Council of Great City School's K-8 math review.

Support services provided include but are not limited to the following:

- Conduct all new-to-district and new-to-grade level professional development sessions to ensure thorough understanding of Grade Level Expectations as well as currently adopted curricular resources

- Develop and deliver a “Train the Trainers” model utilizing math support specialists from each building throughout the district
- Provide in-service professional development support at school start
- Continually create, revise, and publish online and supplemental resources for teachers throughout the district
- Coordinate all professional development sessions for Tier II interventions such as Math Whizz and SuccessMaker
- Coordinate mid-year and end-of year benchmark testing and assist with ongoing data analysis
- Analyze changes in math standards and revise pacing guides and supplementary materials as necessary in order to standardize delivery of curriculum throughout the district
- Organize and deliver credit courses (such as Math Consortium and ASDSA) and workshops to promote best practices in math instruction
- Support district-wide math community nights and other extra-curricular projects
- Facilitate collaboration between math teachers throughout the district in order to improve math instruction
- Model lessons and co-teach to support best practices in math instruction
- Provide math-related professional development to other key departments, including English Language Learners, Gifted, Migrant Education, Indian Education, Educational Technology, and Special Education
- Research materials to support standards-based instruction and provide professional development when new resources are adopted
- Align math standards and programs along with other departments to assist with RTI implementation in mathematics

Any further reductions in staff would greatly hamper the department’s ability to provide the supports outlined above.

CHARTER SCHOOL FUNDING

School Board member Gretchen Guess submitted the following request on January 23, 2012. Chad Stiteler, Chief Financial Officer, Marie Laule, Budget Director and Mary Meade, Charter School Supervisor prepared the following response.

REQUEST:

Charter school funding:

- a. Does the current exclusion of additional local funding to charter schools stand up to our constitutional obligation of providing equitable education?
- b. What is the current price per square foot with utilities of each charter school?
- c. What services, if any, do charter schools receive that are not part of the 2-3% indirect cost rate?
- d. Are charter schools included in receiving funds that come through grants?

RESPONSE:

- a. Does the current exclusion of additional local funding to charter schools stand up to our constitutional obligation of providing equitable education?

The district complies with Alaska Statute 14.03.260 that sets forth the required funding that districts must provide to their charter schools. Additionally, charter schools are provided services and grants for

additional funding beyond the basic need calculation as required by the state. They also serve as a set of school choices along with neighborhood schools, and the district's many alternative schools to provide equitable education within Anchorage. Each student is unique, and the instructional method that's best for one child may not be the best for another. Parents and students have many educational options within the Anchorage School District.

b. The current price per square foot including utilities are as follows:

Charter School	Size	O & M FY 2012/2013 Proposed Budget	Rent Budgeted 2012-2013	Total O & M 2012-2013	Cost per sq/ ft
Alaska Native Cultural Charter School	31,790 sq/ ft.	Telephone \$7,550 Liability Insur \$9,000 Total \$16,550	\$ 489,065	\$ 505,615	\$ 1.33

- Winterberry – this charter school is working with a builder to build a new school to open in FY 2012-2013. The square footage will be approximately 15,000 square feet. The rent is estimated to be \$450,000 bringing the per square foot amount to \$2.93.

c. What services, if any, do charter schools receive that are not part of the 2-3% indirect cost rate?

Services that the Charter Schools receive that are not part of the indirect cost rate are as follows: Title I, 21st Century Schools, 504 Coordinator, Children In Transition (CIT), Creating Successful Futures (CSF) , A/V Services & Repair, Community Services, Accountability, Gifted Program, Grants, MSI, Recycling, School Business Partnerships, School Resource Officers, Security and Emergency Preparedness, Special Education Records and Advising, STEP Center, Municipality Couriers, Training and Professional Development.

d. Are charter schools included in receiving funds that come through grants?

Yes. Like at a neighborhood school, charter school principals have to request participation in certain grants and keep their eyes open for grant opportunities. For instance, the AK Native Charter School is currently included in the STEM, Title VII, Project Ki'l, the Trauma Project, and others. They do not get services from ELL without paying for them, or Special Education, whose funding comes from federal monies.

Charter schools also received benefits from the ARRA grant monies and are currently included in the CTE grant.

MEMORANDUM

February 8, 2012

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

Carol Comeau

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-06
NON-SCHOOL VERSUS SCHOOL BASED CUTS

School Board member Gretchen Guess submitted the following request on January 23, 2012. Marie Laule, Budget Director and Chad Stiteler, Chief Financial Officer prepared the following response.

REQUEST:

What are the cuts by non-school versus school based by both FTE's and total dollars?

RESPONSE:

Attached is the reduction list by:

- instructional school based
- non-instructional school-based
- enrollment based
- non-school based, non-instructional district-wide, and
- districtwide adjustments based on recent year's history with no impact on programs.

REVISED

MEMORANDUM

February 6, 2012

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT *Carol Comeau*

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-07
HIGHLY GIFTED PROGRAM

School Board member Gretchen Guess submitted the following request on January 23, 2012. Ed Graff, Assistant Superintendent Instruction; Darla Jones, Executive Director Curriculum and Instructional Support; Peter Ljubicich, Gifted Supervisor; and Marie Laule, Budget Director, prepared the following response.

REQUEST:

Highly Gifted Program:

- a. What programs are available for highly gifted at the middle and high school levels (e.g., honors or other)?
- b. What research is available that states children can accurately be deemed gifted or highly gifted before 2nd/3rd grade?
- c. What would the reduction in costs over time for phasing out the highly gifted program - assuming you would stop taking students at K, 7, and 9 - but let everyone else finish through their current schools (e.g., the 3rd graders at RP could finish RP)
- d. What is the current class size for the highly gifted program
- e. What was the cost per test for the highly gifted program (IQ test) and the ignite or other gifted tests

RESPONSE:

Information added after January 27, 2012 has been underlined.

- a. **What programs are available for highly gifted at the middle and high school levels (e.g., honors or other)?**

The highly gifted program serves any qualifying student in the Anchorage School District. The Elementary Highly Gifted Program is housed at Rogers Park Elementary. The Midlevel Highly Gifted program is housed at Romig Middle School, and the High School Highly Gifted program is housed at West High. The Midlevel Program offers specific highly gifted classes in Language Arts and Science. Social Studies courses, due to scheduling realities, are comprised of gifted students as well, although these courses are not formally gifted classes. Math placements are based on the student's current math level (i.e., pre-algebra, algebra I, geometry, algebra II etc.).

At the High School level, dedicated gifted counselors serve the highly gifted population, and highly gifted specific courses are offered in English 9, English 10, Biology and World History. Counselors and staff then make determinations regarding optimal placements and coursework in grades 11-12. These students typically are placed in a number of AP (Advanced Placement) courses, sometimes online through My High if the specifically needed AP course is not offered at West. In some cases, students have taken math instruction (at their own expense) at UAA when ASD does not offer a needed course (i.e., linear algebra, differential equations, etc.). Other HG students elect to pursue an International Baccalaureate diploma and enroll in advanced courses in that program as well.

- b. **What research is available that states children can accurately be deemed gifted or highly gifted before 2nd/3rd grade?**

The gifted program serves identified students with advanced intellectual and academic talents. Rimm, Davis and Siegel note that the primary trait of gifted students is that they are developmentally advanced in language and thought. Others have characterized giftedness as precocity, or as asynchronous development demonstrated by advanced cognitive abilities and a higher mental age than the student's chronological age. Rimm, Davis and Siegel observe

that gifted student's intelligence-test performance and school achievement typically match that of older children. (Source: Education of the Gifted and Talented, Sixth Edition). The gifted program utilizes a variety of achievement and ability tests designed to measure these characteristics and to make eligibility decisions supported by data derived from these assessments. Rimm, Davis & Siegel's findings are applicable to the age group in question.

Further, Dr. Linda Silverman, the director of the Gifted Development Center notes: "Children and adults can be assessed at any age. However, the ideal age for testing is between 5 and 8 ½ years." (Source: "What We Have Learned About Gifted Children", http://www.gifteddevelopment.com/What_is_Gifted/Learned.htm)

Miraca Gross in her article "Small Poppies: Highly Gifted Children in the Early Years notes; "The most effective method of identifying highly gifted children in the middle years of school is through standardized tests of ability and achievement, particularly when the tests have a high enough ceiling to discriminate between children at different levels of giftedness." (Source: http://www.davidsongifted.org/db/Articles_id_10124.aspx)

Heller observes, "Considerations which are directed at optimizing individual socialization and education processes speak for the earliest possible identification", and "Early prognoses aid not only the child psychologist but are also indispensable to the early childhood educator". (Source: "Identification of Gifted and Talented Students", Psychology Science, vol. 46, 2004. Online at <http://www.pabst-publishers.de/psychology-science/3-2004/05.pdf>)

Borland notes that IQ tests are capable of providing information that is useful in many situations in which school personnel must make decisions about the placement of children into programs for gifted students. ("IQ Tests: Throwing Out the Bathwater, Saving the Baby", online at http://www.davidsongifted.org/db/Articles_id_10206.aspx)

Testing and assessment reliability can vary in young gifted students, particularly where students are shy, perfectionistic or extremely active, as noted by Sylvia Rimm and others. Therefore, we use multiple criteria in evaluating students for eligibility and do not rely on one sole indicator in making eligibility decisions. Clearly defined, objective,

data-driven decision-making is expected for all placement decisions in the district, including the gifted program. The gifted program uses a classroom teacher observation checklist, ability assessments (the most commonly used are noted below in question "e"), achievement assessments (including the Woodcock-Johnson, Terra Nova and others), and an IQ test for the Elementary HG program only. Research supports the use of multiple criteria, both qualitative and quantitative to provide a defensible way to be as inclusive and accurate as possible in identification of eligible students.

The need for the use of multiple criteria and the importance of proper, accurate identification and placement is reinforced by Kearney in her article "The 10 Most commonly Asked Questions About Highly Gifted Children". She addresses the question of whether giftedness goes away as follows; "No. Highly gifted children grow up to become highly gifted adults. However, on the way to adulthood, giftedness may appear to "hide out". For many complex reasons, exceptionally gifted children are not always high achievers. In schools where achievement, high academic performance, task commitment, or concrete products are a major factor in identification for gifted programs, these children may not even be identified as gifted, despite extremely high IQ scores and evidence of marked early and advanced development."

- c. **What would the reduction in costs over time for phasing out the highly gifted program - assuming you would stop taking students at K, 7, and 9 - but let everyone else finish through their current schools (e.g., the 3rd graders at RP could finish RP)**

The highly gifted functions are staffed as follows:

Rogers Park Elementary HG: 9.0 FTE are classroom teachers, one 1.0 FTE teacher serves as parent liaison, program coordinator, and organizes staff development, one 0.8 FTE employee teaches Algebra I and tests/conferences all pre-K, Kindergarten and 1st grade referrals (IGNITE staff test the remaining grades), one 0.6 FTE employee serves as the SEL support teacher doing both in-class SEL lessons and work with individual students as needed, and one 0.438 FTE teacher's aide is utilized in the kindergarten.

Midlevel HG: The gifted program supplies 1.2 FTE to Romig that is allocated between the HG counselor and teaching staff as determined

by the principal. Other teaching staff is provided through the Romig staffing levels.

High School HG: The gifted program supplies 3.5 FTE, allocated between two counselors (one full time, the other is .5) and .5 FTE to each of four teaching positions covering specific 9th and 10th grade HG courses. The counselors continue to work with students until graduation as each pursues individual programs of study. FTE for non-HG-specific courses is provided through West High School staffing levels.

The phase-out described in this question would take six years to fully implement; the 2011-12 school year's kindergarten class would take six years to age out in this scenario.

Costs of these positions can be estimated using 2012-2013 school year figures supplied by the ASD budget office (\$93,587 per FTE including benefits per teacher and \$15,264 for the .438 teacher's aide). If the HG program were eliminated, savings of \$163,240 (supplied by the ASD transportation department and not reflected in the gifted budget) would be realized at the transportation department because the Rogers Park Elementary HG program busing would no longer be required. Further, phasing out the HG program implies an annual savings of the full amount of the HG staff FTE by the end of the phase-out period. Upon completion of a full phase-out of the program, the apparent annual savings to the district would be \$1,685,255 assuming existing staffing levels (based on 2012-2013 figures). Apparent annual savings would of course be less during the phase-out period.

The calculations are as shown:

Teaching FTE: 16.1 @ \$93,587 = \$1,506,751

Teacher's Aide (.438 FTE): \$15,264

Elementary HG Transportation: \$163,240

Total: \$1,685,255

However, phasing out the highly gifted program would not result in savings of that magnitude for several reasons. First, all students currently served by the HG program at the elementary, middle, and high school levels would still be attending school in the Anchorage School District. These students would therefore impact classroom teaching staff levels needed in other neighborhood school locations. Second, every Elementary HG student in grades 2-6 would

automatically be eligible for Gifted Program services through the IGNITE enrichment program by virtue of the higher criteria required for HG, thereby increasing staff needs in IGNITE. Third, every HG Midlevel student would automatically be eligible for (non-HG) Gifted Program services at their neighborhood middle school, again by virtue of the higher HG eligibility criteria; thereby increasing gifted staffing needs at non-HG midlevel. Fourth, teachers in the gifted program have devoted considerable time and expense to gain training and expertise in differentiation and the unique, specific needs of gifted students so that they can develop and provide the challenging higher-order instruction necessary to address the specialized needs of these students. If the HG program was dissolved and students returned to regular neighborhood classrooms, they would not have their learning and social/emotional needs fully met. This would result in a more restrictive, less appropriate educational environment for these students and a need for additional training and professional development (and associated costs) throughout the district. The Gifted Program is not a "school of choice"; it is a program of need for the students served.

d. What is the current class size for the highly gifted program?

Highly Gifted class sizes are as follows. Numbers are current as of January 27, 2012 but will increase at the elementary level as referrals are completed and students are admitted during the remainder of the school year:

Elementary: 184 total students. Kindergarten: 14, Grade 1: 26, Grade 2: 18, Grade 3: 27, Grade 4: 22, Grade 5: 42, and Grade 6: 35. The 2nd and 3rd graders are in two 2-3-combination classes, one with 22 students and the other with 23. The 5th graders are divided into two classes of 21 students each. There are two sixth grade classes, one with 17 students, and the other with 18.

Midlevel: 109 total students. HG specific courses are between 29 and 34 students each.

High School: 154 total students. 63 are 9th graders. Each 9th grade HG class is at 31 or 32 students. 34 are 10th graders. 10th grade-specific HG classes are at approximately 20 students. Other courses vary as individual student interests and needs dictate individual programs of study coordinated by HG counselors.

- e. What was the cost per test for the highly gifted program (IQ test) and the ignite or other gifted tests?

E. The Gifted Program uses and administers a variety of nationally normed ability and achievement assessments in making eligibility determinations. The tests below are commonly used for IGNITE, midlevel gifted, and all HG services (elementary, midlevel and high school), except where specifically indicted. The actual assessments administered vary on a referral-by-referral basis as appropriate. The costs per test for the materials are as follows. Costs of these materials include a typical 15% freight charge for the materials.

An estimate of the personnel costs incurred in administering these assessments requires an average hourly cost figure per teacher. That estimate has been calculated using an average annual teacher cost, including all benefits, of \$93,587 as supplied by the ASD budget department. The calculation is:

$$\underline{(\$93,587/182) / 8}$$

182 is the number of teacher workdays per year (by contract) and 8 is the number of hours worked per day. This calculation shows an approximate average hourly teacher cost of \$64.28.

A number of these assessments can be administered to groups of students. Others must be administered individually. When a test is administered to a group of students, the cost to administer the test is incurred once per group of students, while the scoring costs are per student.

Woodcock-Johnson III Test of Academic Achievement: \$4.97 per consumable test booklet. The gifted program already owns the administrator kits and scoring software. This test is administered individually. Each test takes approximately one hour of staff time to administer and score. Approximate personnel cost per test administration: \$64.28.

Test of Cognitive Skills, Level 1: \$7.58 per consumable student test booklet. This ability test is given to students in grades 2-3. The gifted program already owns all administration and scoring materials. This test can be administered to groups of students and takes approximately one hour. Each test booklet then takes approximately 15 minutes to score. Approximate personnel cost per test administration: \$64.28 plus \$16.07 per booklet for scoring.

Test of Cognitive Skills, Levels 2-3-4: \$3.06 per carbonless consumable student answer sheet. These are used in grades 4-7. The gifted program already owns all administration and scoring materials, and student test booklets. Student test booklets are not consumable on these levels of this assessment. This test can be administered to groups of students and takes approximately one hour. Each test then takes approximately 15 minutes to score. Approximate personnel cost per test administration: \$64.28 plus \$16.07 per answer sheet for scoring.

Cognitive Abilities Test, Levels K, 1, & 2: \$7.05 per consumable student test booklet. These levels of this ability assessment are used in grades K, 1 & 2. The gifted program already owns administration and scoring materials. This test can be administered to groups of students. The full verbal, quantitative and nonverbal batteries take approximately 1¾ hours in total to administer and 20 minutes per student booklet to score. Approximate personnel cost per administration: \$112.49 plus \$21.42 per booklet for scoring.

Cognitive Abilities Test, Levels A-H: \$5.52 per student booklet. These levels of this ability assessment are used in grades 3-10. These are not consumable and the gifted program is adequately supplied with these, and the administration/scoring materials. The full verbal, quantitative and nonverbal batteries take approximately 1¾ hours in total to administer and 15 minutes per student answer sheet to score. Approximate personnel cost per administration: \$112.49 plus \$16.07 per answer sheet for scoring.

Cognitive Abilities Test Answer Sheets, Levels A-H: \$1.32 per consumable answer sheet. These are the student answer sheets used with the test shown immediately above.

Kaufman Brief Intelligence Test (K-BIT): \$2.28 per consumable answer sheet. This ability assessment is used at all grade/age levels, and the gifted program already owns the administration and scoring materials. This test is administered individually and takes approximately 45 minutes to administer and score. Approximate personnel cost to administer and score: \$48.21

Comprehensive Test of Nonverbal Intelligence (C-TONI): \$2.53 per consumable answer sheet. This ability test is used primarily with ELL and bilingual students. The gifted program already owns administration and scoring materials. This test is administered

individually and takes approximately 60 minutes to administer and score. Approximate personnel cost to administer and score: \$64.28.

IQ Assessments (*administered for elementary Highly Gifted eligibility determinations only*): These tests are administered by psychologists from the ASD Related Services department and not by gifted program instructional staff. The Wechsler Intelligence Scale for Children, 4th edition (WISC-IV) is the most commonly used IQ test. The consumable answer booklets cost \$11.18 per test. The test is administered individually and takes the examiner an average of 3 hours for prep, test administration, scoring, and preparation of the written feedback and report. Approximate personnel cost (Related Services psychologists, not Gifted Program Staff) to administer, score and report: \$192.84.

CC/EG/DJ/PL

Time to prepare report: 13 hours.

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-08
HEALTH CARE COSTS

School Board member Gretchen Guess submitted the following request on January 23, 2012. Ed Graff, Assistant Superintendent, Instruction and Chad Stiteler, Chief Financial Officer, and Marie Laule, Budget Director prepared the following response.

REQUEST:

What are of the total health care related costs (e.g., PT, Nurses, Nurse's aides) and do we receive any payer funding for these services? Could I get a copy of 34 CFR 300.34?

RESPONSE:

Health services, which include school nurses, health treatment nurses and nurse assistants provide direct services in the schools to all students as well as individual nursing services to students with disabilities requiring nursing services as stipulated in their IEP.

The following are the health service costs including personnel, contracted services, supplies, equipment and the administration in the General Fund. The grant fund only includes personnel costs.

Health Services General Fund	\$ 10,413,990
Health Services Grant Fund	702,699
Total Health Services	<u>\$ 11,116,689</u>

Related services, as described in 34 CFR 300.34 are services provided to support students with disabilities to be able to access their education. School-based physical therapy, occupational therapy, speech/language, BVI, and adaptive PE are not therapeutic rehabilitative services as are provided in hospitals and rehabilitation centers. Through Medicaid, school districts are able to bill for some of these services for students who are Medicaid eligible, but at this time ASD is not accessing this funding source. However, with the implementation of the new IEP program, district staff is currently reviewing the option of adding the Service Capture module as a feature. This would allow the district to document related services and potentially bill Medicaid in the future. It will be critical that staff is documenting services accurately before we begin billing in order to avoid the huge pitfalls associated with Medicaid billing.

The following are the related service costs including personnel, contracted services, supplies and equipment in the General Fund. The grant fund only includes personnel costs.

Related Services General Fund	\$ 3,463,594
Related Services Grant Fund	587,632
Total Related Services	<u>\$ 4,051,226</u>

Attachment

Time to prepare report: 2 hours

(1) A biological or adoptive parent of a child;

(2) A foster parent, unless State law, regulations, or contractual obligations with a State or local entity prohibit a foster parent from acting as a parent;

(3) A guardian generally authorized to act as the child's parent, or authorized to make educational decisions for the child (but not the State if the child is a ward of the State);

(4) An individual acting in the place of a biological or adoptive parent (including a grandparent, stepparent, or other relative) with whom the child lives, or an individual who is legally responsible for the child's welfare; or

(5) A surrogate parent who has been appointed in accordance with § 300.519 or section 639(a)(5) of the Act.

(b) (1) Except as provided in paragraph (b)(2) of this section, the biological or adoptive parent, when attempting to act as the parent under this part and when more than one party is qualified under paragraph (a) of this section to act as a parent, must be presumed to be the parent for purposes of this section unless the biological or adoptive parent does not have legal authority to make educational decisions for the child.

(2) If a judicial decree or order identifies a specific person or persons under paragraphs (a)(1) through (4) of this section to act as the "parent" of a child or to make educational decisions on behalf of a child, then such person or persons shall be determined to be the "parent" for purposes of this section.

(Authority: 20 U.S.C. 1401(23))

§ 300.31 Parent training and information center.

Parent training and information center means a center assisted under sections 671 or 672 of the Act.

(Authority: 20 U.S.C. 1401(25))

§ 300.32 Personally identifiable.

Personally identifiable means information that contains—

(a) The name of the child, the child's parent, or other family member;

(b) The address of the child;

(c) A personal identifier, such as the child's social security number or student number; or

(d) A list of personal characteristics or other information that would make it possible to identify the child with reasonable certainty.

(Authority: 20 U.S.C. 1415(a))

§ 300.33 Public agency.

Public agency includes the SEA, LEAs, ESAs, nonprofit public charter schools that are not otherwise included as LEAs or ESAs and are not a school of an LEA or ESA, and any other political subdivisions of the State that are responsible for providing education to children with disabilities.

(Authority: 20 U.S.C. 1412(a)(11))

§ 300.34 Related services.

(a) *General. Related services* means transportation and such developmental, corrective, and other supportive services as are required to assist a child with a disability to benefit from special education, and includes speech-language pathology and audiology services, interpreting services, psychological services, physical and occupational therapy, recreation, including therapeutic recreation, early identification and assessment of disabilities in children, counseling services, including rehabilitation counseling, orientation and mobility services, and medical services for diagnostic or evaluation purposes. Related services also include school health services and school nurse services, social work services in schools, and parent counseling and training.

(b) *Exception; services that apply to children with surgically implanted devices, including cochlear implants.* (1) Related services do not include a medical device that is surgically implanted, the optimization of that device's functioning (e.g., mapping), maintenance of that device, or the replacement of that device.

(2) Nothing in paragraph (b)(1) of this section—

(i) Limits the right of a child with a surgically implanted device (e.g., cochlear implant) to receive related services (as listed in paragraph (a) of this section) that are determined by the

§ 300.34

34 CFR Ch. III (7-1-10 Edition)

IEP Team to be necessary for the child to receive FAPE.

(ii) Limits the responsibility of a public agency to appropriately monitor and maintain medical devices that are needed to maintain the health and safety of the child, including breathing, nutrition, or operation of other bodily functions, while the child is transported to and from school or is at school; or

(iii) Prevents the routine checking of an external component of a surgically implanted device to make sure it is functioning properly, as required in § 300.113(b).

(c) *Individual related services terms defined.* The terms used in this definition are defined as follows:

(1) *Audiology* includes—

(i) Identification of children with hearing loss;

(ii) Determination of the range, nature, and degree of hearing loss, including referral for medical or other professional attention for the habilitation of hearing;

(iii) Provision of habilitative activities, such as language habilitation, auditory training, speech reading (lip-reading), hearing evaluation, and speech conservation;

(iv) Creation and administration of programs for prevention of hearing loss;

(v) Counseling and guidance of children, parents, and teachers regarding hearing loss; and

(vi) Determination of children's needs for group and individual amplification, selecting and fitting an appropriate aid, and evaluating the effectiveness of amplification.

(2) *Counseling services* means services provided by qualified social workers, psychologists, guidance counselors, or other qualified personnel.

(3) *Early identification and assessment of disabilities in children* means the implementation of a formal plan for identifying a disability as early as possible in a child's life.

(4) *Interpreting services* includes—

(i) The following, when used with respect to children who are deaf or hard of hearing: Oral transliteration services, cued language transliteration services, sign language transliteration and interpreting services, and tran-

scription services, such as communication access real-time translation (CART), C-Print, and TypeWell; and

(ii) Special interpreting services for children who are deaf-blind.

(5) *Medical services* means services provided by a licensed physician to determine a child's medically related disability that results in the child's need for special education and related services.

(6) *Occupational therapy*—

(i) Means services provided by a qualified occupational therapist; and

(ii) Includes—

(A) Improving, developing, or restoring functions impaired or lost through illness, injury, or deprivation;

(B) Improving ability to perform tasks for independent functioning if functions are impaired or lost; and

(C) Preventing, through early intervention, initial or further impairment or loss of function.

(7) *Orientation and mobility services*—

(i) Means services provided to blind or visually impaired children by qualified personnel to enable those students to attain systematic orientation to and safe movement within their environments in school, home, and community; and

(ii) Includes teaching children the following, as appropriate:

(A) Spatial and environmental concepts and use of information received by the senses (such as sound, temperature and vibrations) to establish, maintain, or regain orientation and line of travel (e.g., using sound at a traffic light to cross the street);

(B) To use the long cane or a service animal to supplement visual travel skills or as a tool for safely negotiating the environment for children with no available travel vision;

(C) To understand and use remaining vision and distance low vision aids; and

(D) Other concepts, techniques, and tools.

(8)(i) *Parent counseling and training* means assisting parents in understanding the special needs of their child;

(ii) Providing parents with information about child development; and

(iii) Helping parents to acquire the necessary skills that will allow them

to support the implementation of their child's IEP or IFSP.

(9) *Physical therapy* means services provided by a qualified physical therapist.

(10) *Psychological services* includes—

(i) Administering psychological and educational tests, and other assessment procedures;

(ii) Interpreting assessment results;

(iii) Obtaining, integrating, and interpreting information about child behavior and conditions relating to learning;

(iv) Consulting with other staff members in planning school programs to meet the special educational needs of children as indicated by psychological tests, interviews, direct observation, and behavioral evaluations;

(v) Planning and managing a program of psychological services, including psychological counseling for children and parents; and

(vi) Assisting in developing positive behavioral intervention strategies.

(11) *Recreation* includes—

(i) Assessment of leisure function;

(ii) Therapeutic recreation services;

(iii) Recreation programs in schools and community agencies; and

(iv) Leisure education.

(12) *Rehabilitation counseling services* means services provided by qualified personnel in individual or group sessions that focus specifically on career development, employment preparation, achieving independence, and integration in the workplace and community of a student with a disability. The term also includes vocational rehabilitation services provided to a student with a disability by vocational rehabilitation programs funded under the Rehabilitation Act of 1973, as amended, 29 U.S.C. 701 *et seq.*

(13) *School health services and school nurse services* means health services that are designed to enable a child with a disability to receive FAPE as described in the child's IEP. School nurse services are services provided by a qualified school nurse. School health services are services that may be provided by either a qualified school nurse or other qualified person.

(14) *Social work services in schools* includes—

(i) Preparing a social or developmental history on a child with a disability;

(ii) Group and individual counseling with the child and family;

(iii) Working in partnership with parents and others on those problems in a child's living situation (home, school, and community) that affect the child's adjustment in school;

(iv) Mobilizing school and community resources to enable the child to learn as effectively as possible in his or her educational program; and

(v) Assisting in developing positive behavioral intervention strategies.

(15) *Speech-language pathology services* includes—

(i) Identification of children with speech or language impairments;

(ii) Diagnosis and appraisal of specific speech or language impairments;

(iii) Referral for medical or other professional attention necessary for the habilitation of speech or language impairments;

(iv) Provision of speech and language services for the habilitation or prevention of communicative impairments; and

(v) Counseling and guidance of parents, children, and teachers regarding speech and language impairments.

(16) *Transportation* includes—

(i) Travel to and from school and between schools;

(ii) Travel in and around school buildings; and

(iii) Specialized equipment (such as special or adapted buses, lifts, and ramps), if required to provide special transportation for a child with a disability.

(Authority: 20 U.S.C. 1401(26))

§ 300.35 Scientifically based research.

Scientifically based research has the meaning given the term in section 9101(37) of the ESEA.

(Authority: 20 U.S.C. 1411(e)(2)(C)(xi))

§ 300.36 Secondary school.

Secondary school means a nonprofit institutional day or residential school, including a public secondary charter school that provides secondary education, as determined under State law,

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

Carol Comeau

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-09
THREE YEAR AVERAGE OF ANNUAL COMPETITIVE GRANTS

School Board member Gretchen Guess submitted the following request on January 23, 2012. Ed Graff, Assistant Superintendent Instruction; Chad Stiteler, Chief Financial Officer; Darla Jones, Executive Director, Curriculum & Instructional Support; Bev Thornburg, Coordinator, Discretionary Grants and Marie Laule, Budget Director prepared the following response.

REQUEST:

What is the three-year average of annual competitive grants we received, and how many grants were submitted?

RESPONSE:

The District was awarded an annual average amount of \$7,420,813 in competitive grants in the three-year period spanning FY 2008-2009 through FY 2010-2011.

The three-year break-down of awards is:

	Competitive grant awards
FY 2009	\$10,216,873
FY 2010	\$5,507,538
FY 2011	\$6,538,027
Annual average:	\$7,420,813

In that three-year period, 351 grants were submitted and 238 were awarded, yielding an award rate of 68%.

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-10
AVERAGE EXPENDITURE PER STUDENT FOR NON
TITLE 1 AND TITLE 1

School Board member Gretchen Guess submitted the following request on January 23, 2012. Marie Laule, Budget Director and Chad Stiteler, Chief Financial Officer prepared the following response.

REQUEST:

For elementary, middle and high schools (non-Whaley and Mt. Iliamna) what is the average expenditure per student for the non-Title 1 and Title 1?

RESPONSE:

The following provides the average expenditure per student for the non-Title I and Title I schools. Since the FY 2012-2013 Financial Plan has not been adopted, and all federal programs will likely take an 8.5% to 9.5% reduction from the current year allocations, and the Title I school identification have not been finalized for next year, the average below are only estimates at this time.

	<u>Non-Title I</u>	<u>Title I</u>
Elementary	\$6,746	\$7,586
Middle Level	\$7,507	\$7,079
High Schools	\$10,278	\$12,754

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-11
REDUCTION OF UNALLOCATED FTE FOR MIDDLE SCHOOL

School Board member Gretchen Guess submitted the following request on January 23, 2012. Ed Graff, Assistant Superintendent, Instruction; Leslie Vandergaw, Executive Director, Middle School Education and Marie Laule, Budget Director prepared the following response.

REQUEST:

If we reduced the unallocated FTE section (e.g., world language) for middle school, would we still have to raise middle school class size?

RESPONSE:

Increasing the middle school PTR by 1.0 results in a reduction of 9.5 FTE across the division. The stated increase is an averaged impact across buildings and department. Some classes will experience an increase of one or more students while other class sizes will remain the same.

Whenever teaching staff are reduced in a school there are two possible consequences: elective offerings are reduced and/or class size is increased.

If the middle school unallocated FTE of 18.8 were reduced by 9.5 two things would happen: some class sizes would increase and some elective offerings would either be reduced or eliminated. For example, if the eight elective support positions were eliminated, eight schools would have to eliminate an elective from CTE, music, art or world language. As a result of a school having fewer elective options, more students would need to be scheduled in the remaining offerings thereby increasing class sizes in those offerings.

MEMORANDUM

February 2, 2012

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

Carol Comeau

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-12
FUNDING AND LONG RANGE TIMELINE FOR RTI
IMPLEMENTATION AND BOARD UPDATES

Budget Advisory Council Board member Shirley Nelson submitted the following request on January 23, 2012. Ed Graff, Assistant Superintendent, Instruction and Marie Laule, Budget Director prepared the following response.

REQUEST:

Anticipated funding from the General Fund and grant fund? What is the long range timeline for RTI implementation and when will the Board be updated?

RESPONSE:

The phased implementation of Response to Instruction is proceeding on schedule as discussed with the Board and presented to the community. The Board was last formally updated following the fall screening and will next be updated at the close of the winter screening, then again at the close of the spring screening. The Board also receives frequent updates through its Projects and Initiatives updates.

The implementation plan remains as follows:

2011-2012 school year:

Universal screening in Reading in all elementary schools, 2 middle schools, and 2 high schools

2012-13 school year

Universal screening in Reading in all schools
Progress monitoring in Reading in all schools

2013-2014 school year

Universal screening in Reading in all schools

Progress monitoring in Reading in all schools

Universal screening in Mathematics in all elementary schools, 2 middle schools, and 2 high schools

2014-2015 school year – Full RTI Implementation

Universal screening in Reading and Mathematics in all schools

Progress monitoring in Reading and Mathematics in all schools

Funding:

Attachment A illustrates the 2011-2012 budget for the implementation of RTI including the funding source for each item. As demonstrated in this attachment, \$1,311,495 was funded by American Reinvestment and Recovery Act (ARRA) grant funds, \$130,000 was funded by Title I grant funds, and \$408,177 was funded through the General Fund.

Attachment B illustrates the anticipated budget for the entire implementation of RTI in the district. As the Board is aware, the district no longer has access to ARRA funds. The administration will maximize to the greatest extent possible use of Elementary and Secondary Education Act grant funds in future years. These would include the 10% professional development set-aside from the Title I grant and Title IIA. As the district is not awarded these funds until August, we are not able to plan for a specific amount until that time.

MEMORANDUM

January 27, 2012

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

Carol Comeau

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-14
NUMBER OF PRINCIPALS AT COMPREHENSIVE HIGH
SCHOOLS

Budget Advisory Council member Shirley Nelson submitted the following request on January 23, 2012. Ed Graff, Assistant Superintendent, Instruction and Mike Henry, Executive Director of High Schools prepared the following response.

REQUEST:

Why do we need 5 principals in the comprehensive high schools?

RESPONSE:

To effectively manage our comprehensive high schools we need the administrative support we have at each of our comprehensive high schools.

Not all of the comprehensive high schools have five principals. Eagle River High School has two assistant principals and one principal. Chugiak High School has three assistant principals and one principal. Bartlett, Dimond, East, Service, South and West High Schools have four assistant principals and one principal.

Administrative duties are listed below. These are general categories and each of the eight comprehensive high schools assign duties to each assistant principal based upon school goals, needs and initiatives. For instance, some schools choose to involve every administrator in a share of the student services and discipline responsibilities, while others may assign a sole administrator to complete the daily discipline for the entire school. Some schools have split the 9th grade discipline, curriculum and staff services to one administrator.

The duties as listed for high school is a list of administrative items that principals and assistant principals are assigned to supervise, coordinate, manage and evaluate.

For example, the duty listed as "Parking Fines" does not necessarily mean the assistant principal actually monitors the parking lot and writes the parking ticket. It means the assistant principal provides training for safety/security on parking; rules for parking and driving, proper completion and disposition of parking tickets and vehicle search protocol. It includes coordination of school safety/security staff and the school resource officers on violations that may be school infractions and those that may be Anchorage Police Department matters. The assistant principal supervises and directs this process.

In addition, the assistant principal provides training to secretarial staff on the proper procedures for collecting parking fees and fines, documentation and proper handling of funds paid by students. In each high school, a secretary is tasked with the actual distribution of parking permits and the research required for the verification process but the assistant principal is charged with supervising the process and evaluating staff.

On a regular basis, the assistant principal is involved with student conferencing, parent contact and providing consequences for those who have frequent parking/vehicle violations. In addition, the assistant principal is charged with making the determination and leading the way on vehicle searches and police involvement when needed. District high school parking lots are filled with about 3,000 vehicles each day.

The same expanded description of principal and assistant principal duties could be said about "assigning lockers" or "keeping the school calendar." All duties assigned are "administrative" in nature.

Unit Principal

- Overall Responsibility for the School Operation and Supervision
- Administrative Team Management, Assignments, Supervision and Evaluation
- Administrative Team Management Goals
- Instructional Leadership
- Central Administration & School Board Liaison
- Community and Public Relations
- Faculty Meetings and Agendas
- School Philosophy and Goals
- Leave Requests

- Requisitions – Procedures and Approval
- Staffing
- Unit Budget Preparation and Budget Monitoring
- Staff and Professional Development Coordinator
- Major Maintenance and Capital Improvement Projects
- Citizens' Complaints
- Curriculum Selection/Improvements
- Staff and Student Recognition
- Administrative Assistant
- Financial Data Control Clerk
- Primary Liaison for Parent-Teacher-Student Organization
- News Media Liaison
- Line Authority over all personnel in the School Facility
- High School Graduation Qualifying Exam – Support
- Teacher Inservice – Support
- Social Emotional Learning promotion
- RTI initiatives, student screening

Curriculum Assistant Principal

- High School Graduation Qualifying Exam Coordinator
- Zangle Liaison: Staff, Student, Registration, Master Schedule, Staff Teaching Assignments
- Graduation Supervision
- Evaluate, Supervise Counselors
- Honor Graduate Reception
- Substitute Teachers
- Curriculum Design and Development
- Student Enrollment – King Career Center

- Alternative Programs Liaison
- Student Records: Grades, Parent Notification (Pink Slips), Failure Lists, Jeopardy, Honor Roll, Academic Letters/Stars
- Textbooks: Distribution, Collection, Fines, Procedures
- Student Teachers/Observations
- Controversial Materials Procedures
- Guest Speakers Administrator
- Refer students for alternative program
- Special Programs: Special Ed., Gifted, Counseling, Career Resource Center
- Course Outlines, Grading Procedures and Classroom Expectations
- Field Trips: Procedures and Approvals

- Career Resource Supervisor
- Department Chairpersons Supervision
- Ninth Grade Fall Orientation
- Freshman Fair
- Graduate Support Services
- Open House
- Student Remediation Efforts
- Zone Exceptions

Student Services Assistant Principal

- Student Decorum: Referrals, Reports, Behavior Expectations and Consequences
- Special Programs: Student Assistance, Peer Helpers, Drug/Alcohol Intervention
- Directs Student Services Team
- Direct Supervision of Security Team
- Directs the management of Lockers
- Directs the monitoring of Parking – Staff and Student
- Parking Fines Procedures
- Vandalism and Theft Reports
- Law Enforcement and Child Welfare Agencies Liaison
- Oversees Student Transportation
- Revises and Updates Student Handbook
- New Student Entry Conferences
- Student Truancy Processing
- System, Records, Liaison with Student Accounting
- Federal Impact Cards
- Lost and Found supervision
- Coordinates Staff Duty Stations room assignments
- Coordinates and manages Graduation Security
- Student Attendance – Tardy System, Truancy Processing Reports, Recording
- Student Awards Coordinator
- Youth Court Supervisor

Activities Assistant Principal

- Monthly Activity Coverage Calendar
- Manages Student Athletic Eligibility
- Activity Funds – Budget, Requisitions, Reports, District Accounting Procedures, Vending

- Handbooks for Activities
- Activities Calendar
- Yearly Calendar
- Title 9 Report
- Assemblies
- Coaches and Sponsors – Selection, Addenda, Supervision
- Publications Contracts
- Student Government
- Travel – Activities
- Senior Fun Day
- Student Advisory Board
- Student Activity and ID Cards
- Concessions first contact, coordinator
- Building Rentals Liaison
- Display Case
- Booster Clubs
- Activities Budget
- School Dance Coordination

Staff Services Assistant Principal

- Hearing Officer for Student Services
- First Line Back-Up for the Student Services
- Attendance/ Monitors Follow-up
- After-School Program Coordinator
- Parent Newsletter Coordinator
- Coordinator of Staff Evaluations
- Grant Applications and Implementation
- Health Services/Nurse
- School Action Plan and Report Card
- Parent Involvement Plan
- HQ Status Report and Follow-Up
- Student Truancy Back-Up for Student Services
- Faculty Handbook
- Nutrition Services Liaison
- Parent Volunteers coordinator
- Staff Socials, Functions, Gatherings, etc.
- Northwest Accreditation Evaluation Annual Report
- Student Fines Coordinator
- Inservice Coordinator
- Yearbook (review for publication)
- Newspaper (review for publication)

- Building Maintenance Administrator
- Custodial Personnel Supervision back-up
- Staff Development Support
- High School Graduation Qualifying Exam – Support
- Clerical Staff Coordinator
- Equipment and Furniture – Assignments, Inventories, Repairs, Purchases & Storage
- Safety Officer (Safety Reports, Crisis Plan, Accident Reports, Disaster Preparation, Fire Drills, Safety Committee, Emergency Procedures)
- Steering Committee Coordinator
- Impact Cards

All Administrators Assist With:

- School Safety
- Student Decorum
- Social Emotional Learning Activities
- Supervision of Student Activities
- Staff and Teacher Observations and Evaluations
- In-service Activities
- Budget Preparation
- Management/supervision of school accounts
- Community Relations
- School-wide Events

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-15
NON-SCHOOL DEPARTMENT FTE'S FOR SECRETARIES AND
ADMINISTRATIVE ASSISTANTS FOR FY 11/12 AND FY 12/13

School Board member Gretchen Guess submitted the following request on January 24, 2012. Marie Laule, Budget Director and Chad Stiteler, Chief Financial Officer prepared the following response.

REQUEST:

By non-school department, what are the FTE's for secretaries and administrative assistants for 11/12 and proposed for 12/13?

RESPONSE:

The information requested is on the attached spreadsheet. It must be noted that most of these positions include a large technical component. The titles of the administrative assistant and secretary are classifications in the Totem contract.

ANCHORAGE, ALASKA

MEMORANDUM

February 9, 2012

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

Carol Comeau

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-16 & #13-23
SIX YEAR FTE TREND BY DEPARTMENT BY CLASSIFICATION

School Board member Gretchen Guess (#13-16) and BAC member Amy Demboski (#13-23) submitted the following requests on January 24, 2012. Marie Laule, Budget Director; Neil Black, Sr. Budget Analyst; and Chad Stiteler, Chief Financial Officer prepared the following response.

REQUEST:

#13-16

- What is the six year trend – 07/08 to 12/13 of FTE's by department by classification in the final budgets? If positions moved departments you can state in a footnote.

#13-23

- I would like to modify the request for FTE trending. I think it would be beneficial to view the last 5 years by department (FTE) along with salary and benefit information. Additionally, I would like to see your 6 year fiscal plan. This information would be beneficial for the commission to review prior to making any recommendations and to make a complete analysis of the budget.

RESPONSE:

Due to time constraints and an investment of approximately 100 hours, the attachment is a draft of the FTE trending information requested. If there are further questions pertaining to FTE trending, please contact Marie Laule. The latest fiscal plan information requested is on the District's website:

http://www.asdk12.org/School_Board/Archives/2011-2012/20110808/I06M033.pdf

An update of the fiscal plan is scheduled to be available late February.

Two (2.0 FTE) Coordinator positions were upgraded from ACE-12 to ACE-13 for FY 2009-2010. FY 2010-2011 resulted in one (1.0 FTE) Secondary Teacher transferred here from the Unallocated Secondary (1899) budget, two (2.0 FTE) Computer Support 1 positions and one-half (.5 FTE) Computer Support 2 positions were moved to Technology/MIS (1039), and one-half (.5 FTE) Computer Support 2 position was transferred to the ARRA grant. For FY 2011-2012, the Elementary Supervisor was reclassified to Technology Supervisor and one (1.0 FTE) Data Manager was eliminated. Three (3.0 FTE) Technology Teachers were transferred in from the Technology/MIS (1039) budget for FY 2012-2013, and one (1.0 FTE) Secondary Teacher position was eliminated.

For FY 2008-2009, one (1.0 FTE) Secondary School Math Support Teacher was added to provide site-specific training at each middle school based on student and program needs, along with three (3.0 FTE) Elementary Math Support Teachers to strengthen and increase effectiveness of math support and training at each individual elementary site. In FY 2009-2010, one (1.0 FTE) Health/PE Support Teacher was added. In FY 2010-2011, one (1.0 FTE) Executive Secretary was replaced with one (1.0 FTE) Administrative Assistant, two (2.0 FTE) Curriculum Coordinators (math and science) were eliminated and replaced with one (1.0 FTE) STEM Coordinator, and one (1.0 FTE) Science Support Teacher was added. For FY 2011-2012, one seven-hour (.875 FTE) Safe & Drug Free Schools Supervisor, and one (1.0 FTE) Grant Technician were eliminated. In addition, three (3.0 FTE) Online Learning Teachers have been added to manage the professional development, online course revision and support for online courses as they are taught. Furthermore, one (1.0 FTE) Registrar was also added to manage the registration process and maintenance for student records. For FY 2012-2013, one Curriculum Coordinator (1.0 FTE) was upgraded to Career Technology Education Director and then moved to the Career Technology Education (1040) budget along with an Administrative Assistant (1.0 FTE). One STEM Coordinator (1.0 FTE) was added, one (1.0 FTE) Health/PE Support Teacher, one (1.0 FTE) Language Arts/Social Studies Teacher, one (1.0 FTE) Administrative Assistant split between Art and World Languages were eliminated due to budget reductions and one (1.0 FTE) Response To Instruction (RTI) Support Teacher was added. One (1.0 FTE) Online Learning Teacher was converted to one Web Programmer (1.0 FTE).

FY 2008-2009: Two (2.0) FTE Teacher Experts, for the Student Information project were added during FY 2007-2008 out of the implementation funding to support the implementation of the project. One (1.0) Programmer Analyst was upgraded for FY 2008-2009 to a Systems Analyst. One (1.0) Microcomputer Systems Specialist position was transferred in from the Special Education (1601) budget and converted to a Programmer position.

FY 2009-2010: Three (3.0 FTE) Training Specialists for the Student Information project were added for FY 2009-2010. One (1.0 FTE) Technology Support Specialist I has been added for FY 2009-2010 for Clark Middle School support. One (1.0 FTE) Student Information System Teacher Expert was converted to IT Supervisor (1.0 FTE). Three (3.0 FTE) Senior Clerks were upgraded to Administrative Assistants. One (1.0 FTE) Systems Programmer II was upgraded to Systems Programmer III. One (1.0 FTE) Programmer and one (1.0 FTE) Systems Analyst position were transferred from Assessment & Evaluation (1038) based on better delivery of the program. Also, one of the Programmer positions was increased from 9 months to 12 for FY 2009-2010.

FY 2010-2011: One (1.0 FTE) Project Manager and two (2.0 FTE) Subject Matter Expert positions have been added for FY 2010-2011. One (1.0 FTE) Server Administrator I position was reclassified as one (1.0 FTE) Solutions Architect during FY 2009-2010. Two (2.0 FTE) Technical Support I and one-half (.5 FTE) Technical Support II were transferred in from Education Technology.

FY 2011-2012: Three Elementary K-12 Education Technology Teachers (3.0 FTE) were transferred from the ARRA grant. Sixteen Tech Support I (16.0 FTE), two and one-half Tech Support II (2.5 FTE), one Supervisor Tech Support (1.0 FTE), one Network Analyst (1.0 FTE), one Programmer (1.0 FTE) and one Systems Analyst (1.0 FTE) were transferred from ARRA grant funds. One Student Information Systems Manager (1.0 FTE), and one Project Manager (1.0 FTE) have been eliminated. One Records Technician (1.0 FTE) was converted from one-half A/V Technician (.5 FTE) transferred from the Audio-Visual Services department (1052). One Computer System Operations Specialist (1.0 FTE) was upgraded to one Systems Administrator I (1.0 FTE). Two (2.0 FTE) Technical Support I positions have been upgraded to Technical Support III to meet the needs of the department.

FY 2012-2013: Three Elementary K-12 Education Technology Teachers (3.0 FTE) were transferred to the Education Technology (1035) budget. Extra Help-Classified was converted into a Secretary (1.0 FTE) position. One Student Information System Teacher Expert (1.0 FTE) was converted to one Application Training Specialist (1.0 FTE).

As part of a reorganization in FY 2008-2009, the three (3.0 FTE) Media Distribution Clerks were upgraded from T-7 to T-9, and the Secretary position (1.0 FTE) was eliminated. One (1.0 FTE) Media Distribution clerk was also transferred to the Library Resources (1051) budget. In FY 2010-2011, one-half (.5 FTE) Maintenance A/V Technician was added beginning in January of 2011 to support the maintenance of the added laptops entering the district through both computer refresh and the netbook initiative. In FY 2011-2012, one-half (.5 FTE) A/V Technician was transferred to the Technology/MIS Department (1039) and reclassified to a Records Technician to utilize the position more effectively.

For FY 2010-2011, one (1.0 FTE) Custodian Sub Crew was converted to a permanent, split position between East High School and Clark Middle School. One (1.0 FTE) Custodial Supervisor was transferred here from Chugtak High School. In FY 2011-2012, One (1.0 FTE) Energy Conservation Manager was added to oversee energy management in an effort to find efficiencies resulting in lower utility expenditures throughout the district. One Custodian (1.0 FTE) was transferred to a permanent one-half (.5 FTE) position at Northwood Elementary and one-half (.5 FTE) to the sub crew group. One sub crew position was then converted to a full time Custodian at Chester Valley Elementary, and an additional sub crew position (1.0 FTE) was converted to a full time Custodian split between Sand Lake Elementary and Mears Middle school. Seven (7.0 FTE) Custodial Supervisors were transferred from the high schools for better operational efficiency, and one (1.0 FTE) eliminated.

Maintenance positions are adjusted annually based on maintenance needs districtwide. For FY 2009-2010, one (1.0 FTE) M-8 Craft Specialist was added to help maintain the new Clark Middle School. FY 2011-2012 resulted in three (3.0 FTE) M-6 Maintenance position eliminations due to operations efficiencies. Also eliminated were one (1.0 FTE) Microcomputer Specialist and one 4-hour (.5 FTE) Server Administrator. One-half (.5 FTE) Administrative Assistant, one-half (.5 FTE) Regulatory Manager and one-half (.5 FTE) Regulatory Compliance Specialist positions were transferred from the Capital Projects fund. For FY 2012-2013, six (6.0 FTE) M-6 positions were eliminated due to budget reductions.

FY 2008-2009: The Creating Successful Futures (CSF) programs at College Gate and Northwood were expanded by adding Teacher Assistants (3.063 FTE). Twenty four (24.0 FTE) P.E. Teachers were added for planning time per the AEA agreement in effect at that time. Thirty nine and one-half (39.5 FTE) Elementary Teachers, one (1.0 FTE) Secondary Teacher and four-tenths (.4 FTE) FLES Teacher were reduced due to lower enrollment. One-half (.5 FTE) Counselor position was added at Bowman Elementary.

FY 2009-2010: Many of the Secretary positions were increased to six hours or more, resulting in the clerical increase of 3.5 FTE. Full Day Kindergarten Teacher Assistants were increased by 8.187 FT, Elementary Teachers increased by 31.5 FTE, and Secondary Teachers by .5 FTE for increased enrollment. There was one (1.0 FTE) Counselor added for Ptarmigan Elementary. The budgeted staffing of other teaching positions (P.E., Music, Health, FLES, World Language) remained the same in total.

FY 2010-2011: One (1.0 FTE) Elementary Assistant Principal was eliminated. Thirty (30.0) Elementary Classroom Teachers were added for increased enrollment, with four of them (4.0 FTE) being designated for the Creating Successful Futures program, and one-half (.5 FTE) directed towards Secondary level. Increased PTR for grades 2-6 then reduced Teaching positions by seven (7.0 FTE). Two Elementary Reading Specialists (2.0 FTE) were transferred here from the Elementary Education (1031) budget for classroom support. Three (3.0 FTE) Custodial positions were transferred here: (2.0 FTE) from Middle Schools, (1.0 FTE) from High Schools). Noon Duty Attendants were increased one hour.

FY 2011-2012: The Family Resource Coordinator (.6 FTE) was eliminated due to budget reductions. Forty-two (42.0) Elementary Teachers were transferred out of the General Fund to the Education Jobs Bill fund. In addition, twelve (12.0 FTE) Teaching FTE net of the one-half Counselor addition, were reduced for decreased enrollment.

FY 2012-2013: Four three and one-half hour (1.75 FTE) Library/Media Assistants were eliminated due to budget reductions. Forty two (42.0 FTE) Elementary Teachers from the Education Jobs Bill were moved back to the General Fund. Class sizes were increased in the 3rd grade by .5 and 4th grade through 6th grade were increased by 1.0 resulting in a Classroom Teacher reduction of 15.0 FTE. Lower enrollment has led to a reduction of eight (8.0 FTE) Elementary Teachers. One teacher (1.0 FTE) for the Creating Successful Futures (CSF) program, six Counselors (6.0 FTE) and four (4.0 FTE) Librarian positions were also reduced. FLES Teacher positions were increased .9 FTE based on program need, and Noon Duty Attendants were reduced .043 FTE.

FY 2008-2009: One four-hour (.5 FTE) Graduation Coach position was added at Polaris to help guide students towards graduation and one (1.0 FTE) Social Work Coordinator was added at Romig to reduce absenteeism and truancy. One (1.0 FTE) Assistant Principal was added for increased enrollment at Begich while Clark was under construction. Overall student population decline resulted in the reduction of five and one-half (5.5 FTE) Classroom Teacher positions. Six-tenths (.6 FTE) of a P.E. Teacher was added to Polaris for planning time per the AEA agreement in effect at that time. World Language teachers were increased by 2.0 FTE.

FY 2009-2010: Projected enrollment increases necessitated the addition of 12.1 FTE Teacher positions. The re-opening of Clark Middle School resulted in the addition of nine (9.0 FTE) Custodial staff.

FY 2010-2011: The four-hour (.5 FTE) Graduation Coach position at Polaris was eliminated due to budget reductions. PTR was increased from 25.54 to 26.25 for teachers resulting in a reduction of eight (8.0 FTE) Teaching positions for budget reductions. The projected enrollment increase added 16.5 FTE Teacher positions. One and one-half (1.5 FTE) Custodian positions were transferred out of Middle Schools to other areas of the district.

FY 2011-2012: One Social Work Coordinator (1.0 FTE) and one Assistant Principal (1.0 FTE) were eliminated due to budget reductions. Sixteen (16.0 FTE) Classroom Teachers were moved to the Jobs Bill fund. Ten (10.0 FTE) Career Guide Teachers were added from the expiring ARRA funds. Four-tenths (.4 FTE) Chinese World Language teacher was added at Begich, the feeder school for Bartlett's Chinese program. Two (2.0 FTE) Language Acquisition Teachers were added, and enrollment projections resulted in a decrease of three (3.0 FTE) Teacher positions. One (1.0 FTE) Master Plan Facilitator was added for Romig, one-half Custodian (.5 FTE) was transferred to Mears from the Operations (1061) budget.

FY 2012-2013: Sixteen (16.0) Teacher positions were transferred back from the Jobs Bill fund. The class size increase of 1.0 reduced Teacher positions by 9.5 FTE. Two (2.0 FTE) Teacher positions were reduced for enrollment. Ten (10.0 FTE) Career Guide Teachers were eliminated, as were six and four-tenths (6.4 FTE) in School Suspension Teachers and one (1.0 FTE) Language Acquisition Teacher due to budget reductions. One (1.0 FTE) Master Plan Facilitator was eliminated. Also eliminated due to budget reductions were custodians (2.5 FTE) and Noon Duty Attendants (2.5 FTE).

FY 2008-2009: Eight and one-half (8.5 FTE) Graduation Support Coordinators were added. One (1.0 FTE) Coordinator Transition/Social Services was converted from one (1.0 FTE) Counselor. Thirteen (13.0 FTE) Teaching positions were eliminated due to enrollment. Four-tenths (.4 FTE) Chinese World Language teacher was added at Bartlett. Other Teacher reductions total 4.3 FTE.

FY 2009-2010: One Secondary Teacher (1.0 FTE) was added for the Nine Star program, seven full-time (7.0 FTE) Teacher positions were reduced due to enrollment.

FY 2010-2011: One and one-half (1.5 FTE) Graduation Support Coordinators were eliminated. One (1.0 FTE) Administrative Assistant for the Creating Optimal High School Opportunities (COHO) program was eliminated. One-half (.5 FTE) Principal was added for the Crossroads program and one (1.0 FTE) Assistant Principal was eliminated. Four and one-half (4.5 FTE) Teaching positions were added for enrollment, and fourteen (14.0 FTE) were reduced due to budget reductions. One (1.0 FTE) On-Line High School Remediation Teacher was moved to the Educational Technology budget (1035). One-half (.5 FTE) Custodian was moved out of the high schools based on needs elsewhere in the district, and one (1.0 FTE) Custodial Supervisor was transferred to the Operations (1061) budget.

FY 2011-2012: One Principal (1.0 FTE) split between COHO and Continuation (1884) was eliminated. Twenty-four (24.0 FTE) Teaching positions were transferred to the Jobs Bill fund. Lower projected enrollment necessitated the elimination of another ten and one-half (10.5 FTE) Teaching positions. One Master Plan Facilitator was added for West High School. The seven (7.0 FTE) Custodial Supervisors were transferred to the Operations (1061) budget for better operational efficiency.

FY 2012-2013: The Non-English Proficient (NEP) Supervisor position at South High (1.0 FTE), and the Eltnaarvik Within East (E.W.E.) Supervisor positions (1.0 FTE) were eliminated. Seven (7.0 FTE) Graduation Support Coordinators are also being eliminated. Twenty-four (24.0 FTE) Teachers were added back from the Jobs Bill fund. An increase in the PTR of 1.5 results in the elimination of twenty-four (24.0) Teaching positions. Four (4.0 FTE) Career Technology Education Teachers were moved to the new Career Technology Education (1040) budget. Eight (8.0) Secondary Teachers were eliminated due to lower enrollment. The Master Plan Facilitator (1.0 FTE) position has been eliminated as well.

In FY 2008-2009, the Health Services Coordinator was reclassified to a Director position. One seven-hour (.88 FTE) Health Treatment Nurse position was transferred to grant funding, and one seven-hour (.875 FTE) Nurse Assistant position was added. For FY 2009-2010, one Nurse position (1.0 FTE) was added to better meet the program needs by converting one seven-hour Health Treatment Specialist/Nurse. In FY 2011-2012, the Nurse position for Girdwood Elementary was increased by one-half (.5 FTE) to bring it to a full-time position (1.0 FTE). For FY 2012-2013, one (1.0 FTE) Health Service Coordinator and one (1.0 FTE) Administrative Assistant were transferred here from the grant fund, and two and one-tenth (2.1 FTE) Health Treatment Specialists were transferred to the grant fund.

MEMORANDUM

January 31, 2012

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

Carol Comeau

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-17
NUMBER OF BUSES AND COST OF TRANSPORTATION

School Board member Kathleen Plunket submitted the following request on January 24, 2012. Steven Kalmes, Director of Transportation Services, prepared the following response.

REQUEST:

Please list the number of buses and cost used by each of the type of routes/major category.

RESPONSE:

The following is a breakdown of the number of routes and runs by type and cost. Costs are based on the information supplied as part of the program evaluation process. Only the Girdwood afterschool bus is included in the transportation department budget.

Home to school	Buses	Runs	Cost
Regular Routes	142	720	\$10,498,290
Special Education Routes	97	452	\$10,198,229
KCC 3 rd Session to KCC	7	7	Included in regular routes.
After School Routes			
KCC 3 rd Session KCC to neighborhood stops	11	11	CTE Funds \$60.45 per hour
High School CTE routes Bartlett, Chugiak, Eagle River, East, Service, South	6	6	CTE Funds \$60.45 per hour
21 st Century Begich MS, Fairview, North Star (2), Northwood, Russian Jack, Taku (2), Willowcrest	9	9	Grant Funded \$60.45 per hour

After School Programs Central MS, Clark MS (2), Airport Heights	7	7	Grant Funded \$60.45 per hour
Girdwood Activity Bus	1	1	\$21,000

MEMORANDUM

February 7, 2012

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT *Carol Comeau*

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-18
BENEFITS AND USERS OF ASD DEMOGRAPHIC INFORMATION

School Board member Kathleen Plunkett submitted the following request on January 24, 2012. Mike Abbott, Assistant Superintendent of Support Services, and Elisabeth Goodman, Demographer, prepared the following response.

REQUEST:

Please list the benefits and the users of the ASD Demographic Information.

RESPONSE:

DATA RECEIVED

Throughout the school year, Demographics and GIS Services (Demographics) provides a variety products to the internal users in the form of statistics, reports, geographic information, and memorandums. The creation of these products is extremely data intensive, requiring Demographics to rely on outside data sources. These sources include local, state, and federal government.

The Municipality of Anchorage provides building permits on a monthly basis, new addresses on a weekly basis, and GIS files on an as-needed basis. Permits assist in planning for additional growth in a neighborhood school. The new addresses ensure that Zangle is kept up to date, only allowing legal municipal addresses to be attached to a student's record. The GIS files are used in conjunction with our school boundary files for a quick reference for parents and schools.

The State of Alaska's Department of Health and Social Services and Department of Labor supply information on an annual and monthly basis. Number of births and birth rates from the Department of Health are vital to projecting Kindergarten for the next five years, in addition to evaluating trends for Kindergarteners beyond this time frame. Migration numbers and rates, population by age, race, and

ethnicity, and the status of the economy comes from the Department of Labor. Alaska has one of the highest rates of gross migration in the United States. As the largest school district in Alaska, projections require a sound knowledge of which direction the rates are headed. Of course, migration is not always predictable, which accounts for projection error. One of the major ties to birth rates and migration is the state of the economy. Getting monthly updates on unemployment rates, areas of job growth, and other economic indicators assists in the projection preparation and demographic monitoring.

Lastly, we receive data from the Federal government. While this is not as heavily used as other sources, the U.S. Census Bureau and U.S. Department of Labor supply statistics on Alaska and the Lower 48 that are used by Demographics. These include decennial census figures, American Community Survey results (social statistics), and economic data for the Lower 48.

DATA DISTRIBUTED

Although Demographics receives a significant quantity of data, the amount that is distributed directly to outside sources is not as abundant.

The majority of our data is readily available for users on the Demographics website. In addition to the demographic information on the website, GIS boundary shape files are housed and released to the public through the Municipality of Anchorage. The purpose of this is for ease in use with other municipal GIS layers. The Department of Labor also receives race and ethnicity data for informational purposes.

BENEFITS OF DATA

Within the Anchorage School District, many schools and departments rely on Demographic information daily, weekly, and monthly. Attachment A shows frequency in which each internal department receives information. The data distributed by Demographics ranges from daily assistance with school registrars and parents, to weekly enrollment reports, to annually updated grade by school projections.

Attachment B relays the benefits of each of our deliverables from Demographics point of view. Each deliverable is utilized differently by each department, therefore more benefits are probable, however not fully quantifiable.

CC/MA/EG

Time to prepare report: 6.5 hours

ASD Demographics and GIS Services
Frequency of Data Delivered to ASD Users

End User	Frequency
<i>ASD Departments:</i>	
Accounting	Weekly
Budget	Weekly
Business Management	Weekly
Communications	Weekly
Elementary Education	Weekly
Grant Writer Services	Weekly
Health Services	Weekly
Instruction	Weekly
Publication Services	Monthly
Secondary Education	Weekly
Special Education	Weekly
Student Nutrition	Monthly
<i>Other Users</i>	
Parents/School Registrars	Daily

ASD Demographics and GIS Services
Benefits of Data Delivered to ASD Users

Deliverable	Benefit
<i>Instructional Planning:</i>	
Determining Program Capacities	Program planning/impacts, boundary changes, forecasting facility needs
Student Activations Monitoring	Staffing needs by grade by school is monitored (as students register for school)
Weekly Enrollment Monitoring	Enrollment by grade by school in a single report, monitoring demographic shifts
Daily Enrollment Monitoring (First 10 Days)	Lagged student activation monitoring for staffing needs by grade and school
Monthly Enrollment Monitoring	Monitors major demographic shifts possibly signaling need for new projections as enrollment changes throughout the year
Military Enrollment Monitoring	Military trends are separate than that of the civilian population. Budgeting, war time, and unpredictable age groups migrating require additional demographic monitoring
<i>Capital Improvement Planning:</i>	
Develop Six Year Projections	Programmatic planning, staff planning, school planning, facilities planning
Develop CIP Book	Demographic and facility resources and projections in an all-in-one resource
<i>Informational Memos:</i>	
First 10 Days Memo	Shows growth throughout the district as students enroll and compares to projected September 30th enrollment to determine if we are on track for meeting projection
September 30th Enrollment Memo	Provides historical comparison of growth in the district
Quarterly Enrollment Memos	Monitors demographic shifts as the school year progresses, provides maps of school capacities
Race and Ethnicity Memo	Provides information on the race and ethnicity of students by geographical area, individual school, and school level
Projections Memo	Budgeting for following school year utilizing the base student allocation formula
<i>Surveys:</i>	
Building Use Survey	Provides data on how each school building is being used, including number of regular ed classrooms, special ed classrooms, and special program classrooms; special education offerings and special program offerings. Used to calculate program capacity as well.

ASD Demographics and GIS Services
Benefits of Data Delivered to ASD Users

Deliverable	Benefit
Relocatable Use Survey	Provides data on how and where our relocatables are being used for planning purposes and capacity indicators
Waitlist Survey	Data on which programs and schools have lists for students awaiting entry and how many are awaiting entry for planning purposes and program needs
<i>Boundary Review:</i>	
Boundary Maps	Visual reference of where school boundaries are currently in addition to various boundary scenarios when prompted by demographic shifts
Student Transfers Reporting	Tracks how many students transfer in and out of a given school from their neighborhood school
Student Home School Monitoring	Tracks how many students live within a boundary, which is different than how many students actually attend the school. Key for knowing how many students are expected to go to neighborhood school for boundary changes.
<i>School Registration:</i>	
Online School Locator	Enables school staff and new ASD parents to find out which school a student should attend based on home address
Boundary Maps	Visual reference of where school boundaries are currently, showing landmarks and streets for a quick guide for ASD parents to know which school their student should attend
Zangle Address Updating	Enables school staff to register a student to a municipal legal address, prevents invalid address entry and registration at incorrect school

ANCHORAGE SCHOOL DISTRICT
ANCHORAGE, ALASKA

MEMORANDUM

January 27, 2012

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

Carol Comreau

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-19
WHAT IS THE TOTAL COST OF THE DATA CENTER

Budget Advisory Commission member Amy Dembrowski submitted the following request on January 24, 2012. Jane Berglund, Chief Information Officer, and Marie Laule, Budget Director, prepared the following response.

REQUEST:

What is the total cost of the data center move?

RESPONSE:

The school board approved on April 18, 2011 \$1,766,200 in ASD Memorandum #301 (2010-2011) BUDGET ADJUSTMENTS AND BUDGET TRANSFER FY 2010-2011 FINANCIAL PLAN in support of the data center move from its Hillcrest location to Kennedy Elementary.

The current ASD Data Center has been housed on the West/Romig campus since 1983. The structure is insufficient to support the technology and staffing requirements of the district. Studies were done in conjunction with the Municipality of Anchorage resulting in an ASD administrative recommendation to move the Data Center functionality and 72 staff members to Kennedy Elementary on Joint Base Elmendorf Richardson.

IT processing schedules require 24/7/365 up time, necessitating a well designed and tested transition plan with minimal planned down time. Expected costs include acquiring technology to be installed and tested in the new location while production processing continues in the current location. When the transition is complete, equipment will be moved from the current Data Center to both the new Data Center and to the district disaster recovery site.

COSTS INCLUDE:

Construction	\$1,127,561
Design	\$84,285
Office Furniture/Setup	\$161,800
Project Management	\$65,595
Hardware Migration	\$157,825
Contingencies	\$169,134
TOTAL	\$1,766,200

MEMORANDUM

February 3, 2012

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

Carol Comeau

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-20
REDUCTIONS OTHER THAN CLASS SIZE

School Board member Gretchen Guess submitted the following request on January 26, 2012. Ed Graff, Assistant Superintendent, Instruction; Mike Abbott, Assistant Superintendent Support Services; Chad Stiteler, Chief Financial Officer; Marie Laule, Budget Director; and Carol Comeau, Superintendent, prepared the following response.

REQUEST:

What would you cut, if you were not going to increase class size?

RESPONSE:

During the budget development process this year, many service level changes and program cuts were considered prior to the decisions presented in the district's FY 2012-2013 Proposed Financial Plan. Each of these considerations was ultimately prioritized higher than the recommended cuts within the proposed budget including the increase to class size. Based on this request for information, the administration has reconsidered these alternative budget reductions.

After clarifications from the board this week, public testimony and a great deal of consideration from the administration, the following budget adjustments would be supported in lieu of the proposed pupil/teacher ratio (PTR). **The adjustments are in no particular order.**

Program/position eliminations:

- Remaining computer refresh funds (\$.5 million)
- Library Resources Supervisor (1 FTE) (.14 million)
- West High School CTE position (1 FTE) (.09 million)
- Education Technology (1 FTE) (.1 million)
- Assessment & Evaluation (1 FTE) (.1 million)

Reductions:

- Reduce per pupil supply allocation by \$5 (.26 million)
- Reduce elementary addenda from 7 to 6 (.06 million)
- Pending negotiations (.15 million)
- Legal fees (.15 million)
- Concussion training (.02 million)

Service level changes:

- Change middle level interscholastics
 - Revenue increase .21 million
 - Expenditure reduction (.3 million)

Acceptable budgetary risks:

- Attrition
 - Salaries (.5 million)
 - Benefits (1 million)
- Utilities (.36 million)

Expenditure decrease total	(3.73 million)
Revenue increase total	.21 million

PTR reduction remaining \$.66 million

Other program reductions were originally considered, reconsidered and remain higher priorities than the increase to PTR as originally proposed. In effort to responsibly respond to the request for information, the following budget cuts would be proposed if adjusting PTR was not considered.

Positions eliminated:

- Elementary library aides (2 positions, not Sand Lake) (\$.03 million)
- High school library assistants (7 positions) (.36 million)

Program eliminated:

- Girdwood busing (activities) (.02 million)
- Highly Gifted busing (.16 million)
- Teacher mentee/mentor program (.09 million)

Additional cuts total (\$.66 million)

Additionally, throughout the budget process this year, the administration identified a number of significant possible changes to service models that warrant further consideration. This review of best practices, key performance measures, department consolidations and possible changes to contractual language has provided conceptual efficiencies that could amount to significant savings over time.

However, at this time, these changes in process and organization are currently only speculative and not fully vetted. Possibilities for change involve **Instruction, Support Services and Business Management** and will be considered through the organizational review and beyond in order to determine validity. Budgeting for the change and implementing them in the budget would be detrimental at this point. If after review these changes make sense, a plan will be presented to the board for consideration in a future year budget. The administration also expects the Council of Great City Schools organizational review will provide efficiencies and cost savings recommendations and ideas.

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-21
ASDHH COSTS AND FUNDING

School Board member Gretchen Guess submitted the following request on January 27, 2012. Chad Stiteler, Chief Financial Officer; Cindy Anderson, Executive Director, Special Education; and Marie Laule, Budget Director, prepared the following response.

REQUEST:

How much does the state provide us to provide the deaf and hard of hearing program and how much does it cost?

RESPONSE:

Students enrolled in the ASSDHH program are also enrolled in Russian Jack Elementary, Clark Middle School or East High School. Depending on individual needs, students attend deaf education classes, special education classes or general education classes. In order to access the curriculum, communicate and participate, ASSDHH students are provided support by deaf education teachers, sign language interpreters and teacher assistants well versed in American Sign Language. These staff also support ASSDHH students in all other environments of the school providing them opportunities to fully participate as a member of the student body. ASSDHH staff also provide ASL instruction as a credit class for general education students wishing to learn sign language. Evening opportunities for parents and community members to learn sign language are also provided.

Funding is provided by the state through average daily membership and intensive funding in the amount of \$3,428,935. The state currently provides funds for transportation for the students attending ASSDHH bussed from the Mat-Su area in the amount of \$180,000. The district also receives two grants specific to ASSDHH. One supports the program directly at \$319,984, and the

other supports training for all interpreters across the state of Alaska at \$82,998. The current revenue for the 11/12 school year is \$4,011,917. The direct special education expenditures for the 11/12 school year is \$3,316,615.

MEMORANDUM

February 3, 2012

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT *Carol Comeau*

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-24
EDUCATIONAL AND FISCAL IMPACT OF ELIMINATING
SECOND PLANNING PERIOD IN MIDDLE SCHOOL

School Board member Jeff Friedman submitted the following request on January 27, 2012. Ed Graff, Assistant Superintendent, Instruction; Chad Stiteler, Chief Financial Officer; Leslie Vandergaw, Executive Director Middle School Education; and Marie Laule, Budget Director prepared the following response.

REQUEST:

In general and in rough estimates, what would be the educational and fiscal impact of eliminating the second planning period in middle school and paying addenda for before or after school team meetings? (or similar model.)

RESPONSE:

Team planning time was originally instituted as a strategy for addressing some of the weaknesses of the junior high model and was incorporated across the country as the middle school model was being implemented. Research had shown that early adolescents would benefit from a more developmentally appropriate and supportive structure than the typical junior high was structurally able to provide.

Interdisciplinary teaming with a common planning period for the teachers on a team is a structural reform that has been made in many middle schools. Such reforms have been found to increase students' well being and to strengthen teacher-student relationships. In turn, when middle school students perceive their teachers care about them and their learning, they are more likely to report that they try to do what their teachers ask them to do and give their best effort in class, and they are less likely to engage in risky behaviors (summarized from Jackson & Davis, 2000).

These social-emotional learning benefits are only one half of the student achievement equation. Teachers must also improve the effectiveness and coherence of instruction across the students' school day. The Anchorage School District is addressing the latter through the implementation of Response To Instruction (RTI).

The middle school planning model is the structure that will allow teams to successfully implement all parts of the RTI framework. Middle school is the only division that has a structure in place to support the problem-solving model needed for the RTI process.

Districts that have successfully implemented and maintained RTI have focused on core/Tier 1 instruction extensively. In order to increase the number of students achieving proficiency and to reduce the number of students needing Tier 2 or 3 interventions, the quality of initial instruction must improve.

The key to the implementation of RTI at mid-level is team planning time which provides the structure needed for instructional teams to:

- analyze student data
- make instructional and behavioral plans to support student success
- receive professional development
- participate in classroom walkthroughs/instructional rounds to improve instruction
- communicate with parents, counselors, ELL and Sped support, nurses, etc.
- engage in ongoing problem-solving to close the achievement gap
- ensure all students show academic and behavioral growth.

Elimination of middle school team planning time would result in a reduction of 52 FTE and a cost savings of approximately \$5 million. If every teacher were paid an addendum for one hour of daily collaboration time the cost to the district would be approximately \$1.6 million. The net savings for the district would be approximately \$3.4 million.

The educational impact for students and teachers would fall into two categories. First, the requirements for teachers to work beyond the regular workday would need to be negotiated. Without full participation the benefits of true team collaboration would not be evenly dispersed across all teachers and all students. The most effective strategy for increasing student success is coherence among all the students' teachers (Feldman, national speaker, RTI Conference 2012). The ability to accomplish this would be deeply impacted by an addenda model.

Secondly, assuming that all teachers were able to participate, before and after school activities (interscholastic, academic, intramural and instructional) for

students would be severely impacted. It would be very difficult to maintain the scope and quality of these activities while the majority of staff was involved in collaborative work outside the school day.

While there would be initial fiscal savings, eliminating the second planning period in middle school would be a dramatic educational obstacle to successfully implementing the RTI framework and our ability to close the achievement gap.

STUDENT ACTIVITIES

School Board member Jeff Friedman submitted the following request on January 27, 2012. Marie Laule, Budget Director and Chad Stiteler, Chief Financial Officer prepared the following response.

REQUEST:

What is the total amount we spend each year on student activities net of any student activity fees?

RESPONSE:

The table below shows student activity revenues and expenditures on a GAAP basis (generally accepted accounting principles) from the FY 2010-2011 CAFR (comprehensive annual financial report). General Fund revenues consist entirely of student activity fees, whereas Special Revenues includes gate receipts, fundraising and fees that help pay for clubs, after school activities, etc.

	General Fund Student Activities	Special Revenues Student Activities	Combined
Revenues	\$ 981,396	\$ 7,441,205	\$ 8,422,601
Expenditures	(6,125,019)	(7,032,791)	(13,157,810)
Excess (deficiency) of revenues over expenditures	\$ (5,143,623)	\$ 408,414	\$ (4,735,209)

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-26
BREAKDOWN OF FEDERAL TITLE I-A SES FUNDING

Budget Advisory Commission member Shirley Nelson submitted the following request on February 1, 2012. Ed Graff, Assistant Superintendent, Instruction; Chad Stiteler, Chief Financial Officer; Vernon Campbell, Director Accountability and Marie Laule, Budget Director prepared the following response.

REQUEST:

Breakdown of Supplemental Education Services (SES) funding. How much is allotted to ASD teachers for tutoring?

RESPONSE:

Supplemental Educational Services are wholly funded by federal Title I-A dollars. Under the Elementary and Secondary Education Act, districts with Title I schools in improvement status are required to set-aside 20 percent (unless a lesser amount is needed) of their Title I funding for implementing school choice transportation and supplemental services. Under this federal mandate, low-income students attending a Title I school in a School Improvement Status of Level 2 or higher are eligible to apply for free tutoring, which must be scheduled outside of regular school hours. The purpose of SES is to help qualified students improve their academic skills.

The Alaska Department of Education and Early Development approves SES providers through an application process, which it administers. In the 2010-2011 school year, EED approved six local providers to serve in Anchorage. In 2011-2012, the number of approved local SES providers is eight. Since 2006-2007, the Anchorage School District has also been approved by EED to provide SES directly to its students.

In the 2010-2011 school year, 1,714 students applied for and were approved for SES. Of these, 581 (or 34 percent) requested a local provider and 1,133 (or 66 percent) requested their school provide tutoring. In the 2011-2012 school year, 1,870 students applied for and were approved for SES. Of these, 598 (or 32 percent) requested a local provider and 1,272 (or 68 percent) requested that their school provide tutoring.

Each year, in its NCLB Consolidated Grant Application, the District sets aside the required federal Title I dollars for SES. However, actual SES expenditures are influenced, annually, by a number of variables. Examples include: the number of eligible students varies with the number and size of eligible Title I schools. The number of students applying varies. Local providers' hourly rates vary. The total number of hours students are tutored varies.

The most accurate way to breakdown SES funding is to report the actual SES expenditures from the most recently completed school year, 2010-2011.

Contracted Services / Local Providers	\$932,380
ASD as SES Provider	\$342,934
Certificated Salaries	\$268,081
Added Duty / Certificated Tutors	\$248,361
Added Duty / SES Principals	\$12,000
Added Duty / SES Site Liaisons	\$7,720
Non-certificated Salaries	\$13,586
Added Duty / Tutor Aides	\$12,786
Added Duty / SES Site Liaison	\$800
Benefits	\$42,545
Supplies and Snacks	\$18,722
<hr/>	
Total 2010-11 SES Expenditures	\$1,275,314

The District anticipates its 2011-2012 SES expenditures will be similar to 2010-2011.

How much is allotted to ASD teachers for tutoring?

In May of 2007, the Anchorage School District and Anchorage Education Association (AEA) signed a Memorandum of Agreement, which states the District teachers who participate in providing supplemental services will be paid by addendum at the rate of \$30 per hour of service provided. For every three hours of direct tutoring, the tutor is paid for a half hour of planning time.

Additionally, the tutor receives compensation for two hours of assessment and reporting prep time per month. Hence, District certificated tutors are compensated at a rate of \$30 per hour for direct tutoring plus planning and reporting time. In 2010-2011, these services came to a total of \$248,361 plus benefits.

By way of comparison, in 2010-2011, the six local SES providers approved by EED charged an average of \$56.80 per hour. These providers were assigned 581 (or 34 percent) of the students and charged a total of \$932,380. The District as SES Provider program was assigned 1,133 (or 66 percent) of the students at a total cost of \$342,934. In 2010-2011, the six local SES providers averaged 32 hours of tutoring per student. The District averaged 45 hours of tutoring per student.

WAREHOUSE/MAINTENANCE EMPLOYEE OVERTIME

School Board member Don Smith submitted the following request on February 1, 2012. Mike Abbott, Assistant Superintendent, Support Services; Chad Stiteler, Chief Financial Officer; and Marie Laule, Budget Director, prepared the following response.

REQUEST:

What is the amount of overtime of employees working in the warehouse and with the trades (painters, carpenters, etc.) and how would that relate to keeping one or more positions that are scheduled for elimination.

RESPONSE:

The 2010-2011 overtime spending for the Warehouse and Maintenance Departments are listed below.

Generally, overtime is used to address special requests or emergency situations that cannot be dealt with during regular work shifts. Although this spending fluctuates significantly from year to year as a result of unforeseen conditions (snow, capital projects, freeze-ups, wind, etc.) it is not expected to increase as a result of the proposed position reductions at the Warehouse and Maintenance Departments.

2010-11

Maintenance Department Overtime	\$ 383,981
Warehouse Department Overtime	\$ 125,625

STUDENTS SERVED BY GRADUATION COACHES AND
SPECIAL EDUCATION COUNSELORS

School Board member Gretchen Guess submitted the following request on February 1, 2012. Ed Graff, Assistant Superintendent, Instruction; Cindy Anderson, Executive Director, Special Education; Mike Henry, Executive Director, High School Education; and Marie Laule, Budget Director, prepared the following response.

REQUEST:

What are the number of students served by the Graduation Coaches and Special Education Counselors?

RESPONSE:

Secondary Special Education Counselor caseloads are as follows:

Bartlett-270
Chugiak-124
Dimond-183
Eagle River-82
East-284
Service-218
South-111
West-223

Each comprehensive high school has one counselor designated to support students with disabilities with the exception of East, which has two counselor positions assigned to the school. Due to the East's high number of self-contained special education programs and transition of student to East from the residential

programs within their boundary, it was determined that additional counseling support was needed.

The Graduation Coaches maintain a case load of 75 students each. Graduation Coaches work with the group of students deemed to be of highest risk of dropping out or not graduating.

HIGH SCHOOL, MIDDLE SCHOOL, AND ELEMENTARY
LIBRARIAN CUTS

School Board member Jeannie Mackie submitted the following request on February 2, 2012. Marie Laule, Budget Director prepared the following response.

REQUEST:

What is the cost comparison for the High School and Middle School librarian cuts proposed last year vs. the Elementary librarian cuts proposed this year?

RESPONSE:

During the FY 2011-2012 budget deliberations, four 7-hour library/media assistant positions were proposed to be eliminated for an estimated cost of \$191,250 at the middle level. At the high school level, one 7-hour library/media assistant position at each of the comprehensive high schools for a total of seven positions, were proposed to be eliminated for an estimated cost of \$328,299. The positions however were reinstated at the end of the second reading.

After months of staff discussions on the FY 2012-2013 financial plan, the administration proposed to reduce 4.0 FTE librarian positions at the elementary level for an estimated cost of \$381,593. The schools would still be staffed with a half-time rather than a full time librarian. In addition, 1.75 FTE library/media assistant positions were reduced at an estimated cost of \$55,730. Last year the elementary library/media assistant positions were proposed to be eliminated; however, the positions were reinstated at the end of the second reading.

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-31
ESTIMATED COST OF THE NEW MATH CURRICULUM
IMPLEMENTATION

School Board member Gretchen Guess submitted the following request on February 1, 2012. Ed Graff, Assistant Superintendent Instruction; Darla Jones, Executive Director Curriculum and Instructional Support; and Mike Fenster, STEM Coordinator, prepared the following response.

REQUEST:

What is the estimated cost of the new math curriculum implementation?

RESPONSE:

The Administration's original proposed timeline for reviewing the K-8 math curriculum was scheduled to begin after the state's adoption of new standards (initially anticipated in the spring) and conclude with a recommendation in the fall of 2012 (see Attachment A, ASD Memorandum #89). Considerable discussion was held at that time with key stakeholders and the math implementation team emphasizing the need for field testing of materials before final selection and consideration of phased in implementations in order to ensure the smoothest possible transition for students and adequate professional development for staff.

In response to this RFI, the Administration has researched costs that would be associated with an adoption and implementation during the 2012-2013 school year, which would be an accelerated timeline over what was originally proposed. In reviewing the potential costs of the implementation, consideration should also be given to other key initiatives in the district, including RTI. An RTI professional development plan has already been created for 2012-2013, and any additional implementations will have an impact on instructional time as well as school personnel's ability to absorb and apply new instructional practices.

The cost for implementation of a new math curriculum for the K-8 mathematics program is broken down below. Along with student texts, costs are shown for sets of classroom kits of manipulatives recommended by the publisher, and teacher peripherals. Please note that costs for publisher on-line recommended materials for students, parents and teachers, and costs for licensing recommended tutoring and assessment components are NOT included, nor are potential consumables because it is unknown if they would be required.

Additionally, initial year professional development costs are included for all elementary teachers and for middle school math teachers. In the first year, each teacher would receive two full days of required professional development at the beginning of the year as well as quarterly professional development in order to ensure effective initial implementation. Costs detailed below would be for one year of implementation only—ongoing professional development remains a critical and necessary component for implementation in subsequent years.

In estimating costs, an important consideration is what method is used to arrive at a figure. In the case of the textbooks and other materials being considered, the current costs of materials from several publishers were reviewed. Normally, an average of costs is considered. In reality, however, an average cost used in an estimate eliminates half of the materials from truly being considered. The prices from six publishers were computed for elementary programs and from three publishers for middle school programs. Shown in the report are the lowest and highest estimated costs for reference.

In estimating the following costs, all elementary and middle schools, including optional programs and charter schools were considered.

School year 2012 – 2013

ELEMENTARY SCHOOLS:

Material costs:

Lowest Cost Program	
Teacher Materials	\$276,437
Student Materials	\$1,086,648
Manipulative Kits	\$564,555
Shipping	\$62,647
Total Cost	\$1,990,287

Highest Cost Program	
Teacher Materials	\$1,024,251
Student Materials	\$2,565,616
Manipulative Kits	\$1,368,209
Shipping	\$147,682
Total Materials Cost	\$5,105,758

Professional Development costs:

2 full days per teacher	Beginning of the year.	\$ 422,720
1 full day per teacher	End of quarters 1, 2 and 3	\$ 634,080
Total PD Cost		\$ 1,056,800

MIDDLE SCHOOLS:

Materials costs:

Student and teachers texts and teacher peripherals	\$ 551,260
Total Materials Cost	\$ 551,260

Professional Development costs:

2 full days per teacher	Beginning of the year.	\$ 30,080
1 half day per teacher	During each quarter	\$ 30,080
Total PD Cost		\$ 60,160

The possible range of costs to district for 2012 - 2013 school year (utilizing low and high estimates) is \$3,658,507 - \$6,773,978.

ASD MEMORANDUM #89 (2011-2012)

October 3, 2011

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

SUBJECT: RECOMMENDATION FOR COMPREHENSIVE K-8 MATH
REVIEW

ASD Core Value: Public education should be responsive to an ever-changing world.

RECOMMENDATION:

It is the Administration's recommendation that the School Board authorize the Superintendent to conduct a comprehensive K-8 math core curriculum review and/or adoption process beginning in the spring 2012 after the state's revised math standards are approved.

PERTINENT FACTS:

School Board Policy 336.2 states the following: *"The Board shall be notified of a significant curriculum review at the beginning of the process and given an opportunity to provide comments and direction."* In accordance with the School Board Policy, the Administration offers the proposed timeline and process for the recommended review.

Currently, the Alaska content and performance standards for mathematics are in the process of being reviewed and updated by the Alaska Department of Education and Early Education (DEED). Revised standards are anticipated to be adopted by the State Board of Education and Early Development in the spring of 2012. In order to ensure that the standard district-wide adopted texts and curriculum materials are aligned to the new standards and best meet the needs of all District students at grades K-8, the Administration recommends that a thorough review process begin within six weeks of the adoption of the updated standards.

In addition, many textbook and assessment developers are changing their material and texts to align with the common core standards. Alaska's new standards are expected to be as rigorous and comparable to the common core.

Curriculum Review Process and Timeline

The curriculum review process will be similar to other major curriculum reviews in recent years. The following is a brief outline and proposed timeline assuming adoption of the state standards by March of 2012. The timeline will be adjusted accordingly if standards are finalized earlier or later.

November - February: Community hearings to identify community and staff issues regarding current K-8 math programs.

February/March: Two Ad Hoc review committees (one for elementary and one for mid-level) will be appointed by the Superintendent in accordance with Board Policy 336.21, each consisting of key stakeholders including teacher experts, teachers, principals, parents, and community members (including representatives from the Multicultural Education Concerns Advisory Committee, Native Advisory Committee and Special Education Advisory Committee). Students will be included where appropriate.

March/April: The review committees will meet to develop criteria for the review/adoption process, and an Invitation to Submit (ITS) process will be initiated by the Purchasing Department. An ITS notifies prospective publishers of the District's intent to adopt curriculum and requests curriculum submissions.

May/June: Curricular resources will arrive and the review committees will convene and utilize the previously determined criteria to evaluate and select four finalists, if available, from resources submitted for consideration.

August/September: Finalists will be invited to prepare presentations that will be available for the public as well as a larger group of stakeholders than the original committee members. At this point, detailed budget estimates will be required including texts, supplemental resources (such as digital resources) and comprehensive professional development plans.

September/October: After collecting feedback from the presentations, the Ad Hoc committees will complete the review process and make a recommendation to the School Board, including detailed budget estimates. Once approved by the School Board, the Administration will develop a comprehensive training plan, incorporate the cost of materials and training into the FY 2013-2014 budget process and develop a brand-based staff and community outreach plan.

October - June: The Administration will continue outreach and professional development to be ready for the 2013 implementation of the K-8 math program.

MIDDLE SCHOOLS AND HIGH SCHOOLS GIVING UP
UNALLOCATED FUNDS

School Board member Kathleen Plunkett submitted the following request on February 1, 2012. Ed Graff, Assistant Superintendent, Instruction; Leslie Vandergaw, Executive Director, Middle School Education; Mike Henry, Executive Director, High School Education; and Marie Laule, Budget Director, prepared the following response.

REQUEST:

What would Middle Schools and High Schools be giving up if the unallocated funds were taken away?

RESPONSE:

Unallocated FTE

Unallocated FTE includes FTE that is typically assigned after school begins and as areas of need are identified. (Ex: classes with over 30 students). In addition there is some unallocated FTE that appears in each division budget as a historical reference. It is provided above the FTE assigned as a result of student enrollment. Examples include: Step-Up and On-Line Remediation Programs, traditional elective support (CTE, art, music, world language) and differentiated math FTE.

High School Unallocated FTE

- 7.9 --- Reduce large class sizes (holdbacks)
- 1.0 --- Step Up (un- incarcerated violent youth)
- 6.0 --- On-Line Remediation HSGQE
- 1.0 --- Level II (unpredictable increase in SpEd needs)

Middle School Unallocated FTE

- 1.0 --- MSI/Language Acquisition Support teacher*
- 2.8 --- Reduce large class sizes
- 3.0 --- World language classes
- 8.0 --- Elective courses (CTE, art, music, world language)
- 2.0 --- Differentiated math classes**
- 2.0 --- Identified critical needs (unpredictable increase in SpEd needs)

*Multisensory Instruction (MSI)

The MSI coaching position at Hanshew supports MSI teachers as well as students. The coach provides ongoing staff development for MSI teachers in strategies that are multi-sensory. Students receive direct instruction from the MSI coach in skills they can use to support their own learning in core classes. The MSI coach is key to teacher and student success as Hanshew's teachers transition from a traditional pedagogical methodology to the daily integration of MSI strategies.

**Differentiated Math Classes

The emphasis on providing earlier opportunities for enrollment in higher level math courses created a need for middle school students to be able to enroll in Geometry and Algebra II. Currently mid level has 334 7th and 8th grade students enrolled in Geometry and Algebra II.

Unallocated Funds

Unallocated funds are resources that are reserved for specific instructional needs that often arise after school begins and can fluctuate from year to year. An unpredictable surge in student enrollment at a particular school or a larger group of students needing immediate intervention in reading is an example of an unforeseen situation that can be remedied immediately. Unallocated is not synonymous with un-needed. The unallocated budgets are critical in meeting specific and changing needs across both divisions. Additionally, mid-level provides training and professional development for staff and administrators based on district initiatives. Areas supported by unallocated are as follows:

High School Unallocated:

- RTI Support for DHS and BHS
- Support of the Graduation Requirement Task Force
- Project Lead The Way Teacher Training
- Freshman Extended School Year
- DHS Engineering Academy Support
- After School/Lunch Time Programs

- APEX Learning Tools Advanced Placement Review
- Meals/food for un-served students
- Freshman Academy
- SHS support for the Bio-Medical Academy
- Saturday Day Blitz for HSGQE
- Socratic Instruction Professional Development
- WorkKeys Test Delivery
- HSGQE Remediation efforts
- Drop out Prevention Programs
- Literacy Boot Camp
- Computers and software for Remediation
- Training for Remediation Teachers
- Credit Recovery Programs
- Florida Virtual online course purchases
- Fast ForWord Reading software
- Achieve 3000 Differentiated Reading
- READ 180
- APEX Learning Tools Credit Recovery Labs
- Summer Reading Intensives
- Increase Advance Placement Opportunities and Teacher Training
- Additional CTE Classes at King Career Center

Middle School Unallocated:

- Online PreAlgebra for sixth grade students
- Struggling student interventions – tutoring, writing intensives, etc.
- Sixth grade transition camps
- Training and Professional Development
 - Response to Instruction (RTI)
 - Instructional Leadership: Administrative Walkthroughs
 - Math and language arts studios – Center for Educational Leadership
 - Aggressors, Victims and Bystanders (AVB)
 - Standards and Classroom Instruction Support
- Curriculum Support:
 - Textbooks, online resource support, Project Citizen
- Student Advisory Board
- Educational Technology: Fast Forward

MEMORANDUM

February 2, 2012

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT *Carol Comeau*

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-35
WHAT IS THE \$1,600 SCHOOL BOARD PHONE BUDGET USED FOR?

School Board President Gretchen Guess submitted the following request on January 28, 2012. Jane Berglund, and Marie Laule, Budget Director, prepared the following response.

REQUEST:

What is the \$1,600 school board phone budget used for?

RESPONSE:

During the 2011/2012 budgeting process, the school board approved a budget reduction of \$8,600 for School Board phones and data from \$10,200 in 2010/2011 to \$1,600 in 2011/2012. The school board moved from individual cell phone, fax and internet service funded through the district, to only voice/email service resulting in a significant budget cut.

The school board telephone service has been set up with a main number of 742-1101 (Voice Mail Menu Driven Auto Attendant) with seven individual voice mail boxes that have the automatic voice mail to email connection at a current monthly service cost of \$67.75, yearly \$813.00. As this is a substantial departure from ASD provided communication services to board members, funds were included in the budget to cover possible reimbursable expenses such as long distance calls, cell phone calls, etc.

It should be noted that ACS is lowering the cost of voicemail to email on July 1, 2012. This will result in a reduction of \$21.00 per month for a total monthly bill of \$46.75, yearly \$561.00. Including a fee for any phone changes of \$60.00 per phone and possible reimbursable expenses, a line budget item of \$1000 for 2012/2013 is reasonable.

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-36
CONTRACTING AND COST OF TESTING FOR GIFTED
STUDENTS

School Board member Gretchen Guess submitted the following request on February 1, 2012. Ed Graff, Assistant Superintendent, Instruction; Darla Jones, Executive Director, Curriculum and Instructional Support; Peter Ljubicich, Gifted Supervisor; and Marie Laule, Budget Director, prepared the following response.

REQUEST:

Can we contract out testing for gifted students? How much would it cost? How much does it cost now? If IGNITE teachers did not do testing, how much more teaching could be done?

RESPONSE:

A thorough response to this inquiry requires a review of the district's current costs for gifted testing which gifted program teachers currently do, and comparisons with cost estimates for hiring private agencies to undertake the testing. Additional considerations will be discussed at the end of this response, after cost data is provided.

The regulations covering gifted education in Alaska are AS 14.30.352 (Programs for Gifted Children) and 4 AAC 52.800 (District Responsibility for Gifted Education). Neither addresses the questions in this information request. **It appears that the district could contract out testing for gifted students.** Costs are a primary concern, but other issues will be discussed in this response as well.

In preparing this response, the Gifted Supervisor contacted two private psychology practices that often perform testing similar to the ability, achievement and IQ tests currently done as part of the eligibility determination

process. Although each of these private practices took a different approach to calculating a cost estimate, they are useful for comparison to the current costs incurred by ASD in these processes.

Current Facts: The gifted program continues to experience increasing numbers of referrals by classroom teachers, parents and students for eligibility evaluation. On January 23 of this year, the date of the School Board budget work session, the gifted program had approximately 1,890 referrals completed or in process. We are using an estimate of 3,000 referrals in total for the 2011-2012 school year in preparing these comparison and figures.

Assessments used by the Gifted Program: These are listed below, with the associated costs currently incurred by the district. Using figures provided by the ASD budgeted department, an hourly teacher cost figure of \$64.28 was determined (including salary and benefits). *Not every referral receives every test shown. A typical referral would, though, receive a Woodcock-Johnson III Test of Academic Achievement, a Test of Cognitive Skills (TCS), and a Cognitive Abilities Test.* IQ tests are used for the Elementary Highly Gifted Program only.

Woodcock-Johnson III Test of Academic Achievement: \$4.97 per consumable test booklet. The gifted program already owns the administrator kits and scoring software. This test is administered individually. Each test takes approximately one hour of staff time to administer and score. Approximate personnel cost per test administration: \$64.28.

Test of Cognitive Skills; Level 1: \$7.58 per consumable student test booklet. This ability test is given to students in grades 2-3. The gifted program already owns all administration and scoring materials. This test can be administered to groups of students and takes approximately one hour. Each test booklet then takes approximately 15 minutes to score. Approximate personnel cost per test administration: \$64.28 plus \$16.07 per booklet for scoring.

Test of Cognitive Skills, Levels 2-3-4: \$3.06 per carbonless consumable student answer sheet. These are used in grades 4-7. The gifted program already owns all administration and scoring materials, and student test booklets. Student test booklets are not consumable on these levels of this assessment. This test can be administered to groups of students and takes approximately one hour. Each test then takes approximately 15 minutes to score. Approximate personnel cost per test administration: \$64.28 plus \$16.07 per answer sheet for scoring.

Cognitive Abilities Test, Levels K, 1, & 2: \$7.05 per consumable student test booklet. These levels of this ability assessment are used in grades K, 1 & 2. The gifted program already owns administration and scoring materials. This test can be administered to groups of students. The full verbal, quantitative and nonverbal batteries take approximately 1¾ hours in total to administer and 20 minutes per student booklet to score. Approximate personnel cost per administration: \$112.49 plus \$21.42 per booklet for scoring.

Cognitive Abilities Test, Levels A-H: \$5.52 per student booklet. These levels of this ability assessment are used in grades 3-10. These are not consumable and the gifted program is adequately supplied with these, and the administration/scoring materials. The full verbal, quantitative and nonverbal batteries take approximately 1¾ hours in total to administer and 15 minutes per student answer sheet to score. Approximate personnel cost per administration: \$112.49 plus \$16.07 per answer sheet for scoring.

Cognitive Abilities Test Answer Sheets, Levels A-H: \$1.32 per consumable answer sheet. These are the student answer sheets used with the test shown immediately above.

Kaufman Brief Intelligence Test (K-BIT): \$2.28 per consumable answer sheet. This ability assessment is used at all grade/age levels, and the gifted program already owns the administration and scoring materials. This test is administered individually and takes approximately 45 minutes to administer and score. Approximate personnel cost to administer and score: \$48.21

Comprehensive Test of Nonverbal Intelligence (C-TONI): \$2.53 per consumable answer sheet. This ability test is used primarily with ELL and bilingual students. The gifted program already owns administration and scoring materials. This test is administered individually and takes approximately 60 minutes to administer and score. Approximate personnel cost to administer and score: \$64.28.

IQ Assessments (administered for Elementary Highly Gifted eligibility determinations only): These tests are administered by psychologists from the ASD Related Services department and not by gifted program instructional staff. The Wechsler Intelligence Scale for Children, 4th edition (WISC-IV) is the most commonly used IQ test. The consumable answer booklets cost \$11.18 per test. The test is administered individually and takes the examiner an average of 3 hours for prep,

test administration, scoring, and preparation of the written feedback and report. Approximate personnel cost (Related Services psychologists, not Gifted Program Staff) to administer, score and report: \$192.84.

Cost Comparisons: The comparisons below assume 3,000 referrals per school year, with each student receiving a Woodcock-Johnson Test of Achievement, a Test of Cognitive Skills and a Cognitive Abilities Test. One hundred ten IQ assessments are also calculated; we are estimating that that many will be done by the district this school year. Figures will vary from these calculations because the Test of Cognitive Skill and the Cognitive Abilities Test can be administered in groups when possible. Also, materials costs vary depending on which levels of the tests are required. Materials costs of the Test of Cognitive Skills and the Cognitive Abilities Tests are averages.

Current ASD Gifted Testing: Gifted program teachers do the testing with the exception of IQ tests, which are done by ASD Related Services school psychologists.

Woodcock-Johnson III: 3,000 @ \$64.28 + \$4.97 materials = \$207,750
Test of Cognitive Skills: 3,000 @ \$80.35 + \$5.00 materials = \$256,050
Cognitive Abilities Test: 3,000 @ \$112.49 + \$3.50 materials = \$347,970
IQ Assessments: 110 @ \$192.84 + \$11.18 materials = \$22,442
Total: \$ 834,212

Psychology Office #1: This office chose to provide an hourly rate for testing of this nature. That figure was \$120 per hour, charged in one hour blocks. For example, a test that took 1¾ hours would be charged two hours. Costs would be as follows, including testing materials:

Woodcock-Johnson III: 3,000 @ \$120 = \$360,000
Test of Cognitive Skills: 3,000 @ \$240 = \$720,000
Cognitive Abilities Tests: 3,000 @ \$240 = \$720,000
IQ Assessments: 110 @ \$360 = \$39,600
Total: \$ 1,839,600

Psychology Office #2: When presented with the scenario, this office gave a cost figure based on what a private patient might be charged. Costs are as follows, including testing materials:

Woodcock-Johnson III: 3,000 @ \$400 = \$1,200,000
Test of Cognitive Skills: 3,000 @ \$400 = \$1,200,000

Cognitive Abilities Test: 3,000 @ \$600 = \$1,800,000

Total: \$4,200,000

Considerations: These costs are only for the actual test administration and scoring and may vary if additional testing is needed. Gifted program personnel also do the necessary post testing paperwork, and pre and post testing parent conferencing. This would continue even if a private contractor did the actual testing. Further, the private psychology practices that were contacted would have to hire additional staff to handle the volume of testing in a timely manner. Additionally, the cost figures assume that the testing is done at the practitioner's offices, while currently, gifted program staff do the testing at the student's home school during the school day. Transportation issues would arise if the students needed to be at a practitioner's office, or cost estimates may increase if the practitioner travels to school sites during the instructional day.

The testing costs incurred by ASD are the equivalent of 8.9 FTE. An IGNITE teacher spends approximately a third of her/his time actually administering and scoring tests. The remainder of the non-instructional time is used traveling to home schools to do the testing, doing the necessary pre/post-testing paperwork/conferencing, midlevel gifted placements (paperwork and conferencing), continuation paperwork/conferencing on current program students and instructional planning.

Therefore, a typical IGNITE teacher would have approximately an additional third of their work time available for instruction if they did not have to perform the testing function.

DETERMINING MAINTENANCE WORK CONTRACTED OUT
OR COMPLETED BY ASD

School Board member, Pat Higgins submitted the following request on February 1, 2012. Mike Abbott, Assistant Superintendent, Support Services, prepared the following response.

REQUEST:

How does ASD determine whether maintenance work should be contracted out or completed with ASD labor?

RESPONSE:

The vast majority of the maintenance effort conducted by ASD is performed by ASD staff. Work performed by contractors makes up approximately 10 percent of the Maintenance Department annual spending. Projects assigned to contractors are generally those that:

- require specific technical expertise that is not available within the Maintenance staff
- require equipment that is not available within the Maintenance Department
- exceed the work capacity of the Maintenance staff

LEGAL OBLIGATIONS FOR TRANSPORTATION OF GIFTED
PROGRAM AND COSTS

School Board member Jeannie Mackie submitted the following request on February 2, 2012. Ed Graff, Assistant Superintendent, Instruction; Darla Jones, Executive Director, Curriculum and Instructional Support; Peter Ljubicich, Gifted Supervisor; and Marie Laule, Budget Director, prepared the following response.

REQUEST:

Is there a legal obligation to provide transportation to the highly gifted program?
How many students use this service and how much is it costing?

RESPONSE:

At the time of the elementary highly gifted program's creation in the early 1980's, gifted education was covered under Special Education guidelines under Alaska law. This was a state law and not a Federal Special Education requirement. Transportation was provided as a related service under their IEP's after the program's start-up to address parent concerns regarding appropriate service under Special Education guidelines.

In 2002, the State removed gifted education from Special Education as part of a resolution to financial reporting requirements under Federal Special Education regulations. Gifted Education is now subject to Alaska statute 14.30.352 (Programs for Gifted Children) and regulation 4 AAC 52.800 (District Responsibility for Gifted Education). The statute, in section (b) specifies that gifted transportation is eligible for state reimbursement as provided for transportation to all other pupils. However, state direct transportation reimbursement was repealed in 2002, and funding is now calculated via a grant

based on Average Daily Membership (ADM). This grant does not totally fund the district's transportation expenses.

Currently, Alaska statute and regulations relating specifically to gifted children do not mandate the inclusion of transportation for highly gifted students.

According to figures provided by the ASD budget department, the cost of this service is \$163,240.

There are currently 184 students attending the Elementary Highly Gifted Program and 130 students are using the transportation services. The gifted program is a program of need, not a school of choice. This transportation service has been provided under the rationale that the students served in this program cannot have their learning and social/emotional needs fully met in a regular classroom environment and that this needed service is offered at only one location. Cancellation of transportation service would result in the loss of this needed, least restrictive educational service for students who cannot furnish their own transportation and would complicate gifted program efforts to be more inclusive to populations needing this service but traditionally underrepresented in gifted education.

GRANT FUNDING FOR RECYCLING COORDINATOR

School Board member, Jeannie Mackie submitted the following request on February 1, 2012. Mike Abbott, Assistant Superintendent, Support Services, prepared the following response.

REQUEST:

Do we still have grant funding for the recycling coordinator position? If not, how much do we spend from the general fund on this department? I recall that we were saving money on tipping fees as an added benefit of the recycling – do the savings outweigh the costs of running the program at this time?

RESPONSE:

All costs associated with the recycling program were \$159,000 in fiscal year 2010-2011. Savings realized through *active management* of the solid waste-stream were \$149,000. Additional savings realized through recycling, but not tracked by the recycling program, include:

- Summer School recycling
- Charter School recycling - serviced through and a partnership with the ASD life skills program.
- Metal and wood recycling at King Career Center
- Tin can recycling at Student Nutrition
- Metal recycling at Facility/Maintenance shop
- Electrical cord recycling at Operations
- Aluminum can and plastic bottle recycling at multiple ASD locations

Conservatively, the program was cost neutral in fiscal year 2010-2011. The numbers for fiscal year 2011-2012 have not yet been determined. It is noteworthy that the recycling effort shows continued growth in savings year over year.

In addition to the cost savings described above, ASD receives a \$94,000 annual grant from the Municipality of Anchorage. That grant expires later in 2012. The MOA is currently evaluating the ASD grant. We are optimistic that the grant will be at least partially funded going forward.

Coral Comeau

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-40

School Board member Jeff Friedman submitted the following request on February 2, 2012. Ed Graff, Assistant Superintendent, Instruction; Frank Hauser, Music Supervisor and Marie Laule, Budget Director prepared the following response.

REQUEST:

What would be the savings of eliminating elementary sixth grade band and orchestra? Could we still provide a band/orchestra elective for sixth graders in middle school?

RESPONSE:

"What would be the savings of eliminating elementary sixth-grade band and orchestra?"

A: If sixth-grade band and orchestra were eliminated from the 47 elementary schools currently receiving instruction, the savings would be approximately \$1,447,172.

"Could we still provide a band/orchestra elective for sixth graders in middle school?"

A: The band and orchestra elective for sixth graders could still be offered in middle schools but not without irreparably harming the district-wide music program and increasing costs in other areas. Presently, sixth-grade band FTE is funded by the middle schools, not Music Districtwide. The current sixth-grade orchestra electives at middle school could still be funded through Music Districtwide. However, sixth-grade band and orchestra provide a portion of teachers' contractual planning time, so **potential savings would be reduced** by the necessity of additional hires for planning-time coverage.

Secondly, elementary band and orchestra currently provide **2280** sixth-grade students, or **approximately 91%** of sixth graders, an opportunity to learn to play an instrument and explore the benefits of making music. By eliminating the sixth-grade instrumental music program, many students, especially students from lower socio-economic backgrounds, would never have the chance to learn a musical instrument. The Board is committed to providing students a “well-rounded educational program that integrates career and technical education, arts and athletics.” Sixth-grade band and orchestra ensures that students have a well-rounded education and opens the door for lifelong engagement in learning. Indeed, research indicates that music education supports learning in other subjects, increases the long-term success of students, supports the school environment for learning, assists with building society and citizenship, and develops 21st-century skills.

More pointedly, recent research based on data collected by the New York City Department of Education indicates that “public school students at schools with the **lowest graduation rates** have the **least access to instruction in the arts.**” Conversely, “increasing students’ access to arts instruction in schools with low graduation rates can be a successful strategy for lifting graduation rates and turning around struggling schools, not just in New York City, but nationwide.” The report stresses, “[F]or students to benefit fully from high school arts instruction, it is critical that they acquire the increased level of knowledge and understanding that comes with coursework in earlier grades.”

Thirdly, providing band/orchestra only to sixth graders in middle school would potentially raise questions of access and fairness—questions Steller parents and community members brought so forcefully to the forefront during last year’s budget discussions. Any **potential cost savings would be reduced** by the necessity of providing transportation for students at other schools wishing to participate in sixth-grade band and orchestra at middle schools. If transportation were not provided, it might appear to parents and community members that school services were not equally available to all students in the district. Because the recent ASD General Issues Survey indicated that **90% of community members believe in the importance of music and the arts**, those sixth-grade students without access to sixth-grade band and orchestra might be considered to be denied equal access to the benefits of a well-rounded education and to the scientifically proven benefits of music education, including its potentially positive effects on graduation rates.

Finally, eliminating the band/orchestra elective for all sixth graders except those in middle school would eviscerate the Anchorage School District's music program. Sixth graders feed and drive the program and its enrollment throughout middle and high school. Reducing the number of sixth graders who learn band and orchestra instruments by 91% would result in a devastating cascading effect throughout the system. Moreover, this reduction would eliminate the overwhelmingly positive community outreach that the numerous school-sponsored music events provide and would decrease opportunities for positive parent involvement with the Anchorage School District.

COST FOR EACH MAINTENANCE POSITION REDUCTION
EXCLUDING WAREHOUSE

School Board member Pat Higgins submitted the following request on February 3, 2012. Marie Laule, Budget Director prepared the following response.

REQUEST:

What is the cost for each maintenance position proposed for elimination (excluding warehouse)?

RESPONSE:

The cost for the six M-6 maintenance positions

- two positions ($\$97,859 * 2 = \$195,718$)
- one position ($\$86,188$)
- three positions ($\$84,517 * 3 = \$253,551$)

that have been proposed for elimination is \$535,457. This includes salary, benefits, and payroll taxes as shown below. The amount per position does vary based on filled or vacant positions during budget development, average history of overtime for the department and per contract, the uniform allowance and shift pay.

	<u>M-6</u>	<u>M-6</u>	<u>M-6</u>
Salary (M-6)	\$ 57,450	\$ 49,057	\$ 49,057
Uniform Allowance (\$.15)/Shift Pay (\$.45)	1,248	1,248	
Overtime	1,268	1,061	1,061
Benefits and Payroll Taxes	<u>37,893</u>	<u>34,822</u>	<u>34,399</u>
Total of breakout	<u>\$ 97,859</u>	<u>\$ 86,188</u>	<u>\$ 84,517</u>

CLASS SIZE

School Board member Gretchen Guess submitted the following request on January 23, 2012. Ed Graff, Assistant Superintendent, Instruction; Mike Henry, Executive Director High School Education; Leslie Vandergaw, Executive Director Middle School Education; Linda Carlson, Executive Director Elementary School Education; Mike Fleckenstein, Supervisor Information Technology, Maria Hernandez, Supervisor IT Applications Training; and Yuliya Fateyeva, Systems Analyst, prepared the following response.

REQUEST:

- a. What is the mode or count of classsize by number (not range) for non-SPED classes by grade level (can combo middle and high)
- b. In (a) above, please provide the actual classes that are either above or below 10 percent of last year's budget size (e.g., 3rd grade, English 10-1) (a spreadsheet is fine for me so I can play with the data if needed)

RESPONSE:

Attachments:

1. File "RFI 13-43-2_27_2012 Combined" is the data pull.
2. File "Budgeted 2011.2012.PTR" is the provided data for PTR school year 2011-2012 to compare the courses to.

PARAMETERS BELOW:

Elementary Division

All elementary schools including 220 Girdwood and 290 Northern lights are included in this data pull. Please note: Elementary classes also included teachers

funded through Title IIA Class Size Reduction (CSR) and Title I. Therefore, the classes under 10% of budgeted PTR will be over-represented.

We looked at each course and the grade level of the students in the "homeroom" class. If the course only had one grade level then it was compared to 2011/2012 PTR. If the course had more than one grade level then the number of students for each course was provided but this couldn't be compared to 2011/2012 PTR and was marked as a "combo."

Middle Division

We looked at each course and the grade level of the students in the courses. If the course only had one grade level then it was compared to 2011/2012 PTR. If the course had more than one grade level then the number of students for each course was provided but this couldn't be compared to 2011/2012 PTR and was marked as a "combo."

There was a concern regarding before and after school programs that are scheduled in the system. Not every school uses periods 0, 7 and 8 (before and after school program periods) the same way and there is no way to distinguish which period to exclude. All periods were included and the courses in periods 0,7 and 8 over/under 10% of budgeted PTR may be over represented.

Data is provided for the following schools:

- 785 Begich Middle School
- 700 Central Middle School of Science
- 710 Clark Middle School
- 780 Goldenview Middle School
- 730 Gruening Middle School
- 740 Hanshew Middle School
- 750 Mears Middle School
- 755 Mirror Lake Middle School
- 760 Romig Middle School
- 770 Wendler Middle School

The data excludes all of the following courses:

- a. Special Ed courses
- b. Online courses used only at MyHigh
- c. On-Site Supervisory Courses which are used for students in labs taking an APEX courses on-line
- d. Administrative courses which are used for students as place holders such as "Early Arrival"
- e. Advisory courses
- f. Work Experience courses

- g. Teacher Aide courses
- h. English Language Learner courses
- i. Enrichment courses
- j. Independent Study courses

The data includes all of the following courses:

- a. Gifted courses
- b. Highly Gifted courses
- c. AP courses
- d. IB courses
- e. Immersion courses

High Division

We looked at each course and the grade level of the students in the courses. If the course only had one grade level then it was compared to 2011/2012 PTR. If the course had more than one grade level then the number of students for each course was provided but this couldn't be compared to 2011/2012 PTR and was marked as a "combo."

There was a concern regarding before and after school programs that are scheduled in the system. Not every school uses periods 0,7 and 8 (before and after school program periods) the same way and there is no way to distinguish which period to exclude. All periods were included and the courses in periods 0,7 and 8 over/under 10% of budgeted PTR may be over represented.

Data is provided for the following schools:

- 800 Bartlett High School
- 810 Chugiak High School
- 820 Dimond High School
- 865 Eagle River High School
- 830 East High School
- 840 Service High School
- 860 South High School
- 850 West High School

The data excludes all of the following courses:

- a. Special Ed courses
- b. Online courses used only at MyHigh
- c. On-Site Supervisory Courses which are used for students in labs taking an APEX courses on-line
- d. Administrative courses which are used for students as place holders such as "Early Arrival"
- e. Advisory courses

- f. Work Experience courses
- g. Teacher Aide courses
- h. English Language Learner courses
- i. Enrichment courses
- j. Independent study courses

The data includes all of the following courses:

- a. Gifted courses
- b. Highly Gifted courses
- c. AP courses
- d. IB courses
- e. Immersion courses

CHARTER and ALTERNATIVE

Below is the list of Charter and Alternative schools that have been excluded from this data pull.

MEMORANDUM

February 8, 2012

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

Carol Comeau

SUBJECT: RESPONSE TO REQUEST FOR INFORMATION #13-45
MIDDLE SCHOOL AND HIGH SCHOOL UNALLOCATED

School Board member Crystal Kennedy submitted the following request on February 8, 2012. Marie Laule, Budget Director prepared the following response.

REQUEST:

What is the total amount of funds for the Middle School Unallocated and High School Unallocated categories?

RESPONSE:

Middle Level

The Unallocated Middle School Resource (Budget Code 1799) net total is \$1,137,026 as shown on page 386 of the FY 2012-2013 Preliminary Financial Plan. The projected amount that is available to spend is \$2,045,268. The reason for the difference is the cost reduction for salary/benefits of (\$908,242) for (9.5 FTE) secondary teachers due to the increase of 1.0 to the pupil teacher ratio (PTR).

Staffing Salaries/Benefits	\$ 1,888,155	18.8 FTE
Unallocated	<u>157,113</u>	
Sub Total	\$ 2,045,268	
Class Size Increase	<u>(908,242)</u>	<u>(9.5 FTE)</u>
Net Total	<u>\$ 1,137,026</u>	<u>9.3 FTE</u>

The unallocated amount (\$157,113) is for building initiatives, math training and writing program, curriculum support, learning interventions and remediation.

High School

The Unallocated High School Resource (Budget Code 1899) net total is \$719,306 as shown on page 403 of the FY 2012-2013 Preliminary Financial Plan. The projected amount that is available to spend is \$3,019,801. The reason for the difference is the cost reduction for salaries/benefits of (\$2,300,495) for (24.0 FTE) secondary teachers due to the increase of 1.5 to the PTR.

Staffing Salaries/Benefits	\$ 1,524,078	15.9 FTE
Salaries/Benefits (Other)	603,203	
Unallocated	<u>892,520</u>	
Sub Total	3,019,801	
Class Size Increase	<u>(2,300,495)</u>	<u>(24.0 FTE)</u>
Net Total	<u>\$ 719,306</u>	<u>(8.1 FTE)</u>

The salaries/benefits other amount of \$603,203 is for on-line remediation and for the High School Graduation Qualifying Exam (HSGQE) intensive initiatives, administration, remediation training, and classroom support. The unallocated amount of \$892,520 is for the Seward Correctional Program - \$318,600, with the remaining amount of \$573,920 going towards HSGQE, program initiatives, emergency funds for school cafeteria lunches for students, and supplies and equipment.
